Authorized Dealer

B&R Industries

Offers Quality, Reliability and Customer Satisfaction.

The owners of B&R Industries have been serving satisfied customers for two generations, first as a retailer and now exclusively as a manufacturer of fine water treatment products. Daily operations are carefully overseen by the owners, who are twin brothers with over forty five years of combined experience in the water treatment field. They believe in incorporating only the finest components in all their products. Quality and reliability come first.

Thousands of homeowners, restaurants, hospitals, health clubs, beauty salons, electronic firms, laundries, car washes, hotels and motels benefit from our products.

B&R Industries
