Re: Wooden It Be Nice
Date: 6.5.16

I have worked with Wooden It Be Nice on two demanding projects for Walmart Stores, Inc. I find that Wooden It Be Nice has the resources, knowledge, and can do attitude that it takes to meet the high expectations of the construction industry. They perform a variety of scopes that make it convenient for us while remaining competitive. It is refreshing to work with a trade that is part of the solution at all times. I look forward to many more projects in the future with Wooden It Be Nice. Please feel free to call my cell if more information is desired as I would be happy to discuss further.
