

Technical Rider

Microphone

Chris' preference for microphone is:

1st choice- Countryman style headset mic

2nd choice- Wireless lavalier

Confidence Monitor

Chris prefers one confidence monitor positioned at the front of the stage, along with a countdown clock beside it.

AV Testing/Soundcheck

A quick check to determine volume levels and compatibility and to ensure embedded videos and PowerPoint are working smoothly.

Small high-top table, no podium

The high top holds a few props and her water bottle. Chris prefers no podium on stage. If one must be present, ideally it can be pushed back so that she may walk in front of it.

Note: Chris strongly prefers to bring her laptop for use with her PowerPoint slides—everything runs smoothly from her MacBook Pro (embedded videos and varying fonts don't always translate well with other systems)
