Element Irish Whiskey

Element is the world's first Open Innovation whiskey company. We offer the alternative experience of Irish Whiskey for whiskey drinkers who want to explore beyond the standard. When we started this journey we asked ourselves what would happen if we did things differently compared to other whiskey companies. Instead of telling our customers what to like, what if our whiskey could be inspired and developed in conjunction with them? We know nothing hides in whiskey, that each element matters. The grain, the water, the still, the casks. Tradition values the known, but for us, endeavor and the possibility of the next great idea, will always make our spirit that little bit more adventurous.
