

A NEW APPROACH TO COLLEGE PLANNING

NEVER OVERPAY FOR COLLEGE

POM is a proud member of
**The Ohio Association for
College Admission Counseling**

mytuitionscore

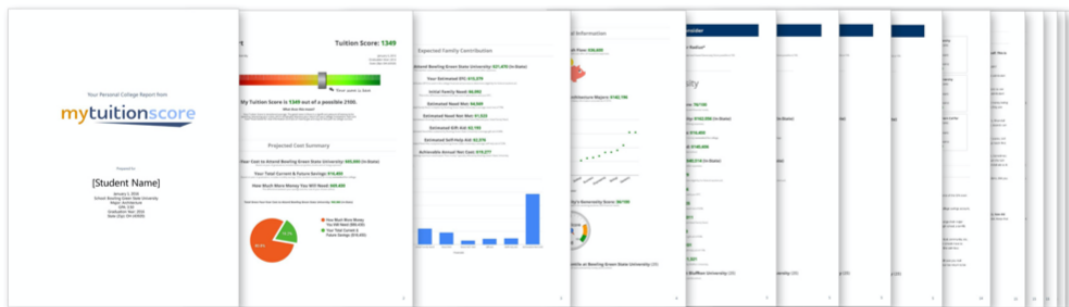

MyTuitionScore is a unique and comprehensive preparation tool for families with children in the college planning phase. **MyTuitionScore** takes the overwhelming and extraneous amounts of information and narrows it down to the most critical aspects of college spending specific to their family.

There is no other college preparation tool on the market that merges financial methodology with educational guidance in the way that **MyTuitionScore** does.

What does a MyTuitionScore Report Include?

The MyTuitionScore Report will include crucial information such as:

- ✔ Your students' Expected Family Contribution (EFC) is the minimum amount the family is "expected" to contribute towards the cost of college — and more importantly, an explanation of what it means, how it applies to the "actual" contribution amount, and how that will affect the overall cost to attend a selected school
- ✔ A Financial aid checklist that helps guide you through the process
- ✔ Access to SAT/ACT prep
- ✔ The total gross cost of the selected school, based on future projected costs for the years that the student will attend
- ✔ Up to 9 suggestions for colleges in their desired geographic area that most likely provide a return on college investment upon graduation — i.e. they will experience a higher likelihood of getting placed in a job in a chosen field at, or near, the top of the pay range
- ✔ Financial aid video with a wide variety of helpful tips
- ✔ Access to variety of student assessments
- ✔ The money needed at the time college will begin. This is based on current and future available savings allocated for college, cash flow, need-based aid available (never guaranteed) at the selected school, historic school generosity percentages, and the family EFC Tips on the entire college planning process, including myths versus truths. These tips help families easily avoid costly mistakes in the complex financial aid process
- ✔ Our proprietary college loan manual, which highlights college loan options, providing a full analysis of each
- ✔ A full scholarship overview of what is available to the family and where to get these monies
- ✔ A complete and updated list of the Top 250 Need-Based Aid Generous Schools
- ✔ Valuable information that can unlock exciting, money-saving opportunities at higher priced schools the student's family may not have considered

- ✓ Myers-Briggs Type Indicator
- ✓ Annual support (until degree is earned)
- ✓ Career resume & interview preparation
- ✓ Mock job interviews

We saved one family over
\$100,000
on a four-year degree!

Seeing is believing. Check out these BEFORE and AFTER letters from the Director of Admissions at CARNEGIE MELLON UNIVERSITY.

These letters, and many more like it, wonderfully illustrate the type of work we can do for you.

BEFORE

AFTER

We take great pride in helping others. That's why we love receiving letters from happy customers!

Letters like the one below make it all worthwhile...

To whom it may concern,

Your kid works hard for four years, challenging themselves every which way, taking the hardest course schedule and adding an ungodly amount of extracurricular activities just so they can apply to the college of their dreams. With a little luck, they get admitted. But after you see the financial package you realize that you cannot afford to send your kid to the place they worked so hard to get admitted to.

Do you really want to tell your kid that they have to go somewhere else? That was me.

I tried to contact the college to see if there was some flexibility but I got nowhere. So I called POM College Consulting. Darren Rose met with us and assessed our situation. Then he helped me craft a new approach.

While I thought I understood all the arguments, Darren understood the nuances – he was able to identify the optimum strategy that would appeal to an admissions officer and to get me to focus on the points that might best present our case for reassessment.

While I served as the point man with the college, Darren guided me through the process behind the scenes. Multiple calls and letters later, we were able to successfully work out a package that was a win-win for all. Darren's assistance was instrumental in the process. We would not have been successful without his counsel.

The college admissions system can be arbitrary and capricious. It is hard enough to gain entrance to a top tier university. You hire coaches for sports. You pay for SAT prep. You may even enlist consultants to aid your kid in preparing their resume and application. And yet it may all be for naught unless you can afford to pay \$50,000 plus per year to send them along.

Fortunately you can also enlist a consultant who can help you to navigate the financial part of the college process – someone like POM who understands the ins and outs and can steer you in the right direction.

Obviously there can be no guarantees – sometimes it just comes down to luck – but having gone through the process with POM on our side, I am confident that POM put us in the best position to get where we needed to be. I would not hesitate to recommend their services.

Sincerely,

Mike B.

Here are a few more statements from some of our happy customers...

I don't know what to say! It feels like we just won the Powerball!! WE COULD NEVER HAVE DONE THIS WITHOUT YOU! Thank you Darren Rose. Thank you so very much.

Brian M.

Everyone that we spoke with at each phase of the process, was friendly, attentive and made us feel so much more relaxed than we probably should have been with college looming.

Terry T.

College is so expensive and most people don't seem to know anywhere near enough about it.

Jack Rotsky

The process was overwhelming. I'm sooo glad I had your help, plus the money I saved more than paid for your services, and then some. Sincere Thank You.

Ashley K.

If you work, if you play, if you are not an expert on all of this-there is no better investment than POM College Consulting. End of story.

Donna Wax

I didn't realize how much I didn't know and how easily mistakes can be made. The guidance and assistance was money well spent. I will use POM again when my youngest is applying down the road.

Gary

If I saw the FAFSA again I was going to scream! Thank you for taking that pile of mistakes off of my hands and giving me true POM (peace of mind).

Teresa

I am thankful and at the same time disgusted at the cost of higher education!

Kathy
