To whom it may concerns:

Re: Recommendation letter for Gargi Barooah

I would like to highly recommend Gargi Barooah as a music teacher for children.

Gargi is a talented piano teacher. She's got a great passion for music and applies very effective teaching techniques with the children.

My daughter Giulia started taking lessons with Gargi in September 2014, and after few months she can read and play basic melodies using both hands simultaneously.

Gargi is very patient with her, encouraging and supporting her without imposing a strict discipline, but talking openly to Giulia on what she should do in order to improve her skills.

This approach proved to be very effective with my daughter, who often wants to practice piano at home by herself.

Gargi is meticulous, committed, and always welcomes my daughter with a smile on her face. I believe she genuinely cares about the children's improvements and their needs. And she clearly does it passionately.

I am extremely grateful to her for everything she has taught my daughter and that's why it is my great pleasure to recommend Gargi Barooah to you.

Sincerely,
Giorgia Sabadini
