

Main Menu Gluten Free Options

**WE ARE NOT A
GLUTEN FREE
RESTAURANT SO
CROSS
CONTAMINATION
CAN OCCUR.**

(1) NOTE- We use a shared fryer. Also, please note that there is always a risk of cross contamination in our kitchen since we are not a gluten free restaurant.

(2) NOTE- Some menu items contain Kikkoman Soy Sauce- According to the U.S. Food & Drug Administration & Celiac.com, any item with less than 20 ppm of gluten is officially deemed gluten free. Kikkoman Soy Sauce has "well under 5 ppm" due to the natural fermenting process (which breaks down gluten proteins). Medical experts note that most people with celiac disease or gluten sensitivities can safely tolerate microscopic traces below 20 ppm. That said, if you'd like to avoid this fermented sauce, let us know so we can make proper adjustments on your order.

**WE HAVE SIDES, TACOS, & BURGERS
