Dr Sharma wishes to thank and acknowledge the VCAA & DET for permitting reproduction of the curriculum on this website.

Levels 7 and 8	Levels 9 and 10
Examine the ways consumers and producers respond to and influence each other in the market, particularly through the price mechanism	Investigate Australia as a trading nation and its place within Asia and the global economy
Identify why and how markets may be influenced by government	Identify and explain the indicators of economic performance and examine how Australia's economy is performing
	Explain the links between economic performance and living standards, including the variations that exist within and between economies, and give reasons for the possible causes of variations
Investigate the rights and responsibilities of consumers and businesses in terms of financial and economic decision making	Explain why and describe how people manage financial risks and rewards in the current Australian and global financial landscape
Explain the reasons why and the ways in which individuals and businesses set, prioritise and plan to achieve financial and organisational goals	
Explore and observe the characteristics of entrepreneurs and successful businesses	Explore the nature of innovation and discuss how businesses seek to create and maintain a competitive advantage in the market, including the global market
Consider the ways in which work can contribute to individual and societal wellbeing	Research the way the work environment is changing in contemporary Australia and analyse the implications for current and future work
Describe the nature and investigate the influences on the work environment	Examine the roles and responsibilities of participants in the changing Australian or global workplace
Explain the role of enterprising behaviours and capabilities in the work environment and explore how individuals and businesses can use them	Identify the ways enterprising behaviours and capabilities can be developed to improve the work and business environments
Identify relationships and trends, and generate a range of alternatives for an economic or business issue or event, evaluating the potential costs and benefits of each alternative and the consequences of proposed actions	Generate a range of viable options, taking into account multiple perspectives, use simple cost-benefit analysis to recommend and justify a course of action, and predict the intended and unintended consequences of economic and business decisions
