

Improve Your Productivity

Briney BR/ER Balanced Collet Chucks

Briney BR/ER Collet Chucks are now balanced to G2.5 at 20,000 RPM, concentric .0002" shank-to-bore. In addition, BR/ER Collet Chucks are CNC precision traverse ground to AT3 taper quality resulting in:

- Extended tool life
- Optimum speeds and feed rates
- Increased accuracy and repeatability
- Eliminates vibration and chatter
- Increased productivity
- Superior surface finish
- Cost saving (tooling and machine time)
- Less spindle wear
