

Sand and Sand Alternatives

SchabelTech offers high quality, washed and dried sands, blends and sand offsets.

WQZ-series: white, rounded, whole grain sand for improved flow and trowelability

AT-series: subangular for grip and compressive strength

RCF-series: subangular recycled sand alternative without free silica and weight savings

SchabelTech WQZ #551
White Rounded ~ 20/40 Mesh

SchabelTech WQZ #331
White Rounded ~ 40/70 Mesh

SchabelTech WQZ #201
White Rounded ~ <100 Mesh

SchabelTech AT #600
Subangular ~ 20/40 Mesh

SchabelTech AT #250
Subangular ~ 50/70 Mesh

SchabelTech AT #100
Subangular ~ 60/140 Mesh

SchabelTech RCF - 590
Recycled ~ 20/40 Mesh

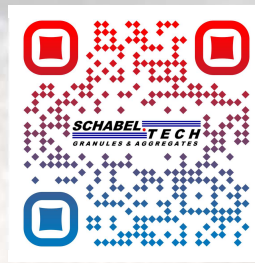

SchabelTech RCF - 55
Recycled ~ 40/70 Mesh

SchabelTech RCF - 70
Recycled ~ <70 Mesh

These products come in 3,000# super sacks or 50# bags.

WQZ - Series

Color: White / off-white

Shape: Rounded for improved flow and trowelability

Advantage: Whole grain sand

Purity: Higher purity over standard sand

Clean: Reduced silt and dust

Tight Spec: Much tighter screen with COAs with each truckload

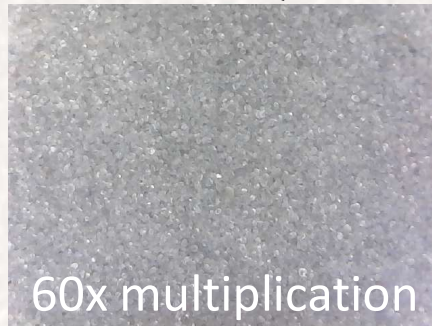

SchabelTech WQZ#551

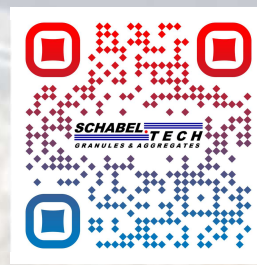

SchabelTech WQZ#331

SchabelTech WQZ#201

These products come in 3,000# super sacks or 50# bags.

AT - Series

Color: Tan

Shape: Subangular for improved grip and strength

Advantage: Consistency batch to batch

Purity: Higher purity over standard sand

Clean: Reduced silt and dust

Tight Spec: Much tighter screen with COAs with each truckload

SchabelTech AT #600

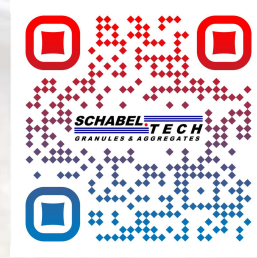

SchabelTech AT #250

SchabelTech AT #100

These products come in 3,000# super sacks or 50# bags.

RCF - Series

Color: Gem sparkle

Shape: Subangular for improved grip

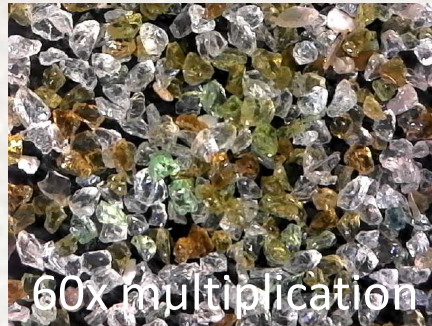

Advantage: Recycled and no free silicosis hazards

Weight: 20-25% lighter weight than sand

Clean: Reduced silt and dust

Tight Spec: Much tighter screen with COAs with each truckload

SchabelTech RCF - 590

SchabelTech RCF - 55

SchabelTech RCF - 70

These products come in 3,000# super sacks or 50# bags.
