**Duty** FOOT PATROL OF PROPERTY

**Notes** While on foot patrol of the outside perimeter of both buildings, I saw 3 different dumpsters that had doors left open. I closed 2 out of the 3. The Southside dumpster doors, next to building #2, could not be closed because the dumpsters were blocking the doors. On the east side of building #2, I found the "Fire Sprinkler Riser Room" unlocked. This is next to the "Electrical Service Disconnects Inside Bulding #2, 1 of 3." On the Southside of building #2, I observed a downed tree that is covering parking spaces. Also at building #2, I note there is a shopping cart inside the stairwell "Stair K, Level 2". At the south, Westside entrance gates, I found the walk through gate was not closed all the way and needs to be manually closed. On the Eastside of building #1, I note the "Electrical Service Disconnects Inside Building #1, 5 of 5", is unlocked. In the same area of building #1, I came upon a "Target" cart on Elysian property. While on the same foot patrol, at the northwest vehicle entrance gates, I observe the left side of the entrance is not closing. I also observed neither vehicle exit gate closing. Photos attached.

**Duty** CLUB HOUSE AND POOL

**Notes** While on patrol of the level 1 gym area, I found several weights not put away, causing a safety hazard. I also observed the gym windows open and closed them. While in the pool area, I note the southeast door that goes between the pool area and resident units, is not locking. Photos attached.
