

Put on your new nature, created to be like God truly righteous and holy. Ephesians 4:24 NLT

Beloved,

When God wants to remove the defects in your life, He doesn't snap His finger and instantly remove them! He does it a little at a time. It has been said when God wants to make a mushroom, He takes six hours, but when God wants to make an Oak Tree, He takes 60 years!

The Holy Spirit will make changes in our lives far beyond anything you thought possible, it never happens overnight but it does and will happen over time. My Pastoral Prayer for you is that through the work of the Holy Spirit and the Word of God and with the support of other mature believers, you will become more mature and Christ like in your faith.

I pray that in time, you will be stronger emotionally, physically, spiritually and psychologically and without a doubt financially. But for all these wonderful things to happen, you must be intentional about it. The Bible says, "Put on your new nature, created to be like God - truly righteous and holy."

This is in no uncertain terms a command, not some holy suggestion! For this is how we become more and more like Jesus. The Apostle Paul says in 2 Corinthians 3:18, "As the Spirit of the Lord works within us, we become more and more like Him...."

Peace and Blessings

Health Corner

Here are some things you can do to get through a bad mental health day. Pt. 2

4. Do a Quick 8-Minute Workout

There are a lot of quick workouts nowadays that you can do in less than 10 minutes. The benefit of this is later in the day, you can tell yourself "I worked out today!" Also, it improves your mood on a sub-conscious level.

5. Cook Your Favorite Mea

There's a lot of peace that comes out of cooking. If you enjoy it, that is. If it's not something you enjoy doing, then you can skip this step. The creativity that goes into it can help inspire you. And when you treat yourself to your favorite meal, it's a great form of self-care.

6. Vent to a Close Friend

On your bad days, let your closest friend know what's going on. Communicating how you're feeling will help you feel better. Suppressing how you're feeling only makes it worse. When you don't let it out, you may even start to believe that you're overreacting or what you're feeling doesn't matter. If you don't have someone available at the moment you need them, another good option is to write out your thoughts in a journal. This helps you get to a spot where your thoughts don't feel so overwhelming all in your head and they start to make more sense once you get it out on paper.
