Triple-i
Government Solutions
.ideate, innovate, implement

Rooted in our 20+ year's experience providing support to State and Federal agencies, Triple-i and its staff have built a solid history of providing results and building strategic teams for highly specialized groups. Our competitive edge is derived from our unique blend of technology, language, and healthcare services. At Triple-**i,** our corporate strategy revolves around the dynamic trio of ideate, innovate, and implement. We are not just a company; we are a catalyst for transformation. With a relentless commitment to **ideation**, we cultivate a culture where bold ideas take root. Through relentless **innovation**, we turn these ideas into groundbreaking solutions that redefine industry standards. But we do not stop there – we distinguish ourselves by our unparalleled ability to **implement** these innovations seamlessly, bringing tangible results to fruition for our customers. At Triple-**i**, our slogan is not just a mantra; it is a promise. We are not only envisioning the future, but we are actively shaping it through a harmonious blend of imagination, ingenuity, and execution. Our core competencies include:

Technology/Research
(NAICS - 541330, 541511, 541512, 541513, 541519, 541690, 541990, 541330, 541720)

A cornerstone to the Triple-i approach is our ability to synthesize problems and develop cost effective customer-focused solutions with technological tools. We leverage cutting edge technologies and structure lean methodologies to develop strategies to meet our customers' needs. Whether it is a staffing or human capital problem, a data management issue, or a system optimization need, we can tackle these problems head on.

Healthcare
(NAICS - 621111, 621112, 621330, 621399, 624230, 623311, 623220, 623110, 622310, 622210)

With the digital health era upon us, Triple-**i** is positioned to provide an integrated approach to medical services and healthcare digital transformation efforts. Our team deploys a combination of medical practitioners and various technologists to promote interoperability, health data management and security, access to care, and quality of care. We attack all problems from the lens of the end user and work our way back to the service provider creating systems and quality services which appeal to patients and providers alike.

Language Services
(NAICS - 541930, 541720, 561410)

One step in globalizing digital transformation in healthcare and continued advancements in technology is the ability to socialize new concepts into a variety of communities. Removing the barriers of language, Triple-**i** uses localization services to bridge the gap between language, communities, and cultures. From more common languages like Arabic, English, French, and Spanish to languages with less than 10,000 living speakers, we have a vast group of translators and interpreters ready to tackle your language service's needs.
