

# WATERSHIELD

Presenting WATERSHIELD, the new Industrial firefighting nozzle Brand from the industry's experienced manufacturer of wildland firefighting nozzles, ball valves, wye valves and many other waterflow products. S&H Products of Arvada, Colorado, has been making these specialized firefighting products for the US Forest Service, wildland, urban interface and industrial firefighting requirements, for over 35 years.

The IND95 nozzle is equipped with spinning turbine shaped teeth, it provides precision water delivery with a Fixed Flow gallonage setting of 95 GPM. With just a quarter turn of the bumper adjustment, the water pattern can be changed from a straight stream to a 110-degree wide fog pattern.

Backed by a 5-year warranty, count on Watershield to help your department save lives and protect property, including chemical plants, refineries, mining, construction and timber industries.
