

Sprinkler Kit

Flow	1.8-2.67 GPM
Throw Radius	30 - 40 ft.
Operating Pressure	35 - 60 PSI
Trajectory Angle	23 degrees
Operation	Full Circle
Drive Mechanism	Spring Arm Impact

This Sprinkler Kit brings together purpose-built hardware and proven experience for a complete package to confront wildfire with confidence. A system that saturates your property with water, creating an environment that is too wet to burn.

MODEL #WS-SP-75NH(KIT)

- Kit includes:
- Impact sprinkler head with USFS ELBOW and 3/4"GHT(NH) inlet - 7/64" outlet (standard) (NFES 0999)
- USFS 3/4" Wye valve to regulate the inlet and allow for adding additional sprinklers (NFES 0904)
- 2 x 18" stakes to mount the sprinkler (NFES 0913)
- 2 x V-bolts to attach the sprinkler to the stakes and to extend the length of the assembly
- 3/4" GHT(NH) hose connections
- Working pressure is 35-60psi
- Constructed of hard anodized aluminum elbow, stainless bolts, and brass hose connections and sprinkler head
- Safe and durable (individually tested)
- This kit is a part of the master federal sprinkler kit (NFES 1048)

Nozzle	Pressure	Radius	Flow
	PSI	FEET	GPM
7/64"	35	71	1.89
	40	74	2.19
	50	76	2.44
	60	78	2.67

Sprinkler Kit

Legal Disclaimer for Sprinkler Kit

The sprinkler kit is designed to help mitigate the risk of property damage by creating a wet zone around structures and land. However, it is not guaranteed to prevent damage from wildland fires. By purchasing and using this product, you acknowledge and agree to the following:

No Guarantee of Effectiveness: While the sprinkler kit is intended to slow or stop the spread of fire by wetting surfaces, its effectiveness may vary depending on environmental conditions, fire intensity, wind direction, and other factors beyond the manufacturer's control.

Proper Installation and Use:

- Proper installation and operation are essential for the sprinkler kit to function as intended.
- Refer to the included user manual for detailed instructions.
- Failure to follow the provided guidelines may result in reduced effectiveness or product damage.
- **Assumption of Risk:** Wildland fires are inherently unpredictable and dangerous. The use of this product does not eliminate the risk of fire damage or personal injury. You assume all responsibility for the risks associated with fire exposure.
 - **No Liability:** The manufacturer and distributor are not liable for any direct, indirect, incidental, or consequential damages resulting from the use, misuse, or inability to use this product. This includes, but is not limited to, property damage, personal injury, or death.
 - **Regular Maintenance:** It is the user's responsibility to ensure the sprinkler kit is maintained and operational at all times. Damaged or malfunctioning components should be replaced immediately.

Compliance with Local Regulations: Users are responsible for ensuring compliance with all local, state, and federal laws and regulations regarding the use of this product. By using this product, you acknowledge and accept these terms.

If you have questions about installation or operation, contact sales@cssupplyinc.com.
