Bankruptcy 101

Automatic Stay 11 U.S.C. 362

The automatic stay is the bankruptcy protection. It is a federal court order that states that once you file bankruptcy a creditor can not contact you. They can't call, write, email, nothing. There are few exceptions. If you are a creditor it is better that you do not try to collect any monies from a bankrupt debtor. If you are a debtor and someone calls you you should contact your attorney immediately. It is a strict liability and a sanction-able offense.
