## Commencement of Peace School Activities

Peace School begins its educational and instructional classes for students on January 8th. As a school with diverse educational programs, we are here alongside your children. If you want your children to participate in our daily programs from 9 AM to 3 PM, please get in touch with us.

## Choose a Child-Friendly and Democratic School for Your Children

Peace School is a child-friendly school. Based on the UNICEF Convention on the Rights of the Child, we prioritize all the needs and dimensions of children's growth. Simultaneously, we are a democratic school, meaning we:

- Pay attention to children's needs, abilities, and talents,
- Structure programs based on children's capabilities,
- Involve children in the learning process,
- Include families as key partners in the educational process,
- Organize all educational programs through collaborative planning among teachers, students, parents, and educational planners.

## Mother Tongue Education

We have language classes for your children on Saturdays and Sundays. We are prepared to offer diverse classes in languages such as Persian, Chinese, Korean, and Arabic. Mother tongue education classes include literature, games, and cultural familiarization through myths, cooking, music, and history. Join our mother tongue language classes!

## Participation in Peace School

Participation stands as a fundamental principle at Peace School. We actively promote collaboration among students in diverse activities, enabling them to assume responsible roles in social life. Focusing on individual differences, needs, and interests, we support students in engaging collectively in scientific, artistic, literary, and social activities. Through collaboration, we contribute to making the world a better place to live.

# World Puzzle Day

January 29th is World Puzzle Day, an exciting game children and adults love. The diversity of puzzles adds to the excitement. We plan to organize a grand celebration for World Puzzle Day. Please email us if you would like to participate in the preparation and organization of this celebration. We are open to collaborating with other schools and educational centers. Contact us at [cpec@peacechildeducation.ca](mailto:cpec@peacechildeducation.ca).

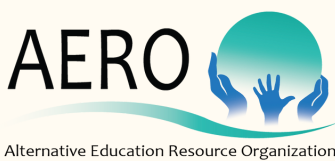

# International Year of Camel

The year 2024 is designated as the International year of Camel by the United Nations and FAO. Camels are crucial in many countries, including Latin America, Australia, the Middle East, China, Uzbekistan, and Mongolia. It is essential to familiarize children with the diversity of this animal across all regions. For more information about this topic, visit <https://www.iyrp.info/international-year-camelids-iy-2024>
