

COD Analyzer with Digester COD1500

COD Analyzer
COD1500

COD Digester

COD Analyzer is used in laboratory adopting new LED testing technique instead of optical system to measure COD.

It is equipped with COD Reactor and can do heating and digestion for 21 samples at one time

It is small in size and convenient in operation. The meter can save large quantity of water, electricity, reagents and can decrease secondary pollution. It is widely used in coking, papermaking, petrochemistry, textile printing, leather manufacturing, pharmacy and food processing, Water & Waste Water Analysis etc....

COD Digester is a instrument which is matched to COD Analyer & used in laboratory. it can also be used in other purposes.
