SYSTEM IN THE HISTORY OF PLM*

What is your Digital Organization? Is it Important Today?

What does it all mean? Are you chasing a Digital Dream?

1. Digital means you are not using paper to collect data
2. Most companies use MS-Office, CAD, ERP, CRM and more
3. The Digital message gets lost b/c we do not focus on the power of Digital
4. Digital data integration is the Key to being Digital
5. Digital Data is money, but Digital Process is Profitability
6. To start, integrate Key Systems – CAD to PLM to ERP

Start with the most important process that gives you the biggest return and the processes that cost you the most in time and money.
