

REHEARSAL GUIDELINES

Your wedding rehearsal should be a quick, easy, and straightforward process. If your ceremony venue doesn't provide a coordinator or if you have not hired a planner, you should choose a friend or family member to help you. If you prefer the celebrant may run the rehearsal for you for an additional fee.

Take with you a copy of your finalized ceremony

At the rehearsal, you are not practicing the ceremony itself - **you are only practicing walking in and walking out, and making sure everyone knows where to stand.** You want the same person who is running the rehearsal to be in charge of the processional on your wedding day as well - that continuity will really help ensure that there isn't any confusion on your big day.
