

Dyers Moor Kennels - **Our Facility**

We no longer offer meet and greet or viewing appointments for new clients but instead require at least one successful trial session ahead of any holiday bookings. We often have reactive/ anxious dogs in our care and allowing strangers to walk through our facility can cause them stress, and the dogs' well-being is our main priority.

During a trial, we have lots of 1 to 1 interaction with your dog/s, allowing them to get used to us, our routine, and see how they settle within our environment. We socialise your dog/s where breed, age, size, and temperament are appropriate to allow them to make new friends if desired.

We provide honest feedback on collection and we will always try our best to work with you, if we feel it is in your dogs' best interest to do so.

Unfortunately not all dogs are suited for a kennel environment and if we feel that your dog is unhappy, we will suggest alternative accommodation for them but we pride ourselves on giving every dog a chance to join our Dyers Moor Farm family.

Please feel free to check out our gallery on our website and a pinned page 'Kennel Gallery' on our facebook page to show some of our family dogs posing in our kennels to help show you what our facility has to offer and check out our regular photo reels to see how much fun our guests have in our care.

Should you have any further questions regarding our facility, please don't hesitate to get in touch.
