Experienced risk analytics and business intelligence leader with a proven record in developing strategic reporting frameworks, risk identification and mitigation, and building data-driven cultures within large organizations. Skilled in leading high-performance teams, I specialize in translating complex data into actionable insights that drive strategic, operational, and tactical decision-making to minimize risk and maximize growth. I possess expertise in KPI/KRI identification, enterprise risk management, data governance, and advanced visualization tools like Power BI and Tableau.

Professional Skills

- Adept at strategic and operational risk management, data analytics, and intelligence analysis
- Skilled in all aspects of internal risk assessments, including credit risk, market risk, operational risk, and reputational risk
- Strategic leadership in data analytics and business intelligence, with a focus on building data-driven cultures and leading cross-functional teams
- Expertise in KPI/KRI development, data governance, and establishing data lineage, stewardship, and reconciliation practices
- Advanced proficiency in data visualization and analytics tools, including Power BI, Tableau, and Alteryx with experience in automating reporting processes for efficiency
- Strong collaborator, skilled in translating business needs into technical requirements and partnering with cross-functional teams to solve complex business challenges
- Skilled in creating and implementing best practices in reporting, data management, and business process improvement
- Effective mentor and leader, with a passion for upskilling and empowering team members to foster innovation and continuous improvement in analytics

Work Experience

Director; Data Visualization

Jackson National Life Insurance: 2023

- Responsible for the implementation of industry best practices to drive efficiencies and grow sales
- Developed a roadmap for transitioning legacy reporting tools to Power BI
- Served as cross functional liaison between Agile technology teams and sales departments, translating business requests to technical requirements
- Contributed to the establishment of governance and lineage rules while serving as a key member in the development of an enterprise data warehouse
- Led team responsible for developing sales analytics KPIs and visualizations
- Developed departmental training regime to upskill junior associates

Senior Vice President; Credit Reporting Administration

Bank of America: 2017 - 2022

- Ensured accurate, relevant, and timely reporting to auditors, senior executives, and regulators, driving enhanced decision-making and compliance by leveraging advanced data analytics
- Key member of the strategic risk and event risk teams, go-to resource for insights into rapidly changing credit environments
- Spearheaded the analysis of complex data sets with advanced querying and visualization tools, resulting in the identification of critical business insights that informed strategic decisions
- Championed the automation of complex processes using Alteryx, significantly improving data manipulation and output efficiency, and led cross-functional teams through the successful implementation of key projects

Vice President; Manager Credit Reporting

Bank of America: 2005 - 2017

- Monitored and reported on actionable economic and portfolio trends in a highly complex environment
- Collaborated across project and business segment teams
- Improved and automated many manual tasks by utilizing technical expertise
- Site administrator for Tableau user base of 100+ finance professionals

Operational Risk Reporting Analyst

Citizens Bank: 2004

- Quantified operational risk losses via general ledger postings
- Established operational risk reporting in accordance with Basel requirements

Assistant Vice President; Credit Reporting

Bank of America: 2004

- Reconciled and validated flow of raw data to finished reporting ensuring accuracy
- Partnered with IT to ensure the merging of two large institutional databases completed successfully

FleetBoston Financial: 2001 - 2004

Corporate Asset Quality Reporting Analyst

- Used qualitative analysis background to improve quantitative reporting
- Participated in asset quality forecasting, regulatory reporting, and identification of data needs

Substitute Teacher

Canterbury, CT Board of Education: 2000

- Managed the classroom effectively to encourage student participation, minimize distractions and maintain a positive learning environment

Intelligence Specialist, Second Class (E5)

United States Navy: 1994 - 1998

- Managed a staff of seven intelligence analysts
- Prepared written and oral reports on complex, time-critical subjects for senior staff
- Oversaw the collection, analysis, and dissemination of classified information
- Subject matter expert on Russian Pacific Fleet and North Korea's military
- Maintained a top-secret security clearance with access to sensitive compartmented information (TS/SCI)

Education

- Bachelor of Arts: Economics, May 2000
- Bachelor of Science: Business Administration, May 2000

Eastern Connecticut State University, Willimantic, CT

Double degree / Magna Cum Laude graduate, GPA 3.7 / 4.0

Volunteerism

Lawrenceville United
