

Plastics Free Food Storage Options (21Feb2025)

Food Storage Bags

Here is a good review of silicone bags for food storage (so replacements for zip lock plastic bags), by someone who apparently has used them extensively. Don't be put off by the high price for first entry and her top-rated product, that is for a seven piece set. Individual pieces are available. And there are a lot of less-expensive alternatives. Several of the product lines listed are also available at Target or at other web sites or from the manufacturer

Food Storage Including Bags and Beyond

This article focuses on food storage containers more generally, and includes a couple of plastic bag replacements, as well as glass, porcelain, and stainless steel products. Information on types of plastic, plastic toxins, and what to do with your old Tupperware, is also included.
