Casino Gambler Relationship

Casino has something the Gambler wants...MONEY

Gamblers play against both the house and other gamblers

Not all Gamblers play fair

Some Gamblers are professional...
some play out of desperation

#AOPA2026 • AOPANET.ORG • AOPAASSEMBLY.ORG

Insurance Contractor Provider Relationship

Payer has something the provider wants...a contract = referrals = revenue

Provider is competing against other providers to secure a contract

Not all Providers may “play fair”

Some Providers may need to contract to stay afloat

#AOPA2026 • AOPANET.ORG • AOPAASSEMBLY.ORG

Casino Gambler Relationship

Casino has professional dealers and pit bosses...this is what they do for a living.

Casino owns the cards and the chips

Casino makes the rules, odds are NOT in the gamblers favor

#AOPA2026 • AOPANET.ORG • AOPAASSEMBLY.ORG

Insurance Contractor Provider Relationship

Payer has lawyers and
contract negotiators...this is
what they do for a living.

Payer has the relationship
with and controls referrals
for patients

Payer makes the rules...
rules are NOT designed to be in your favor

Casino House Rules

- Heavily regulated
- Set the rules
- Have something you want
- Decide if you are allowed to play
- Odds are ALWAYS in their favor

#AOPA2026 • AOPANET.ORG • AOPAASSEMBLY.ORG

Insurance House Rules

- Heavily regulated
- Set the rules
- Have something you want
- Decide if you are allowed to play
- Odds are ALWAYS in their favor

#AOPA2026 • AOPANET.ORG • AOPAASSEMBLY.ORG

Odds are Never in Your Favor

- The house sets the odds
- Game always has better odds to win
- The house will never lose
- The house can stop playing at any time

#AOPA2026 • AOPANET.ORG • AOPAASSEMBLY.ORG

Insurance Contracts are never in your favor

- In a perfect scenario, the contract is a mutually beneficial outcome for the payer, provider and patient.
- Payer sets the terms of the contract.
- Payer can stop negotiating at any time, for any reason.

#AOPA2026 • AOPANET.ORG • AOPAASSEMBLY.ORG

More Gamblers than Casinos

- Yes, Casinos need gamblers to exist, but there is a never-ending number of gamblers.
- Gamblers need Casinos more than Casinos need Gamblers

More Providers than Payers

- Yes, Payers need providers, but for every one contract there can be numerous payers “in the mix”
- Providers need insurance companies more than insurance companies need providers

CONTRACTING

Not Your Cards, Dice or Chips...or Patients

- These are not your patients...they are clients of the payer.
- Purpose of the contract is to determine if you will have access to treat the payer's beneficiary.
- Payer's position is to find a qualified, reliable provider to treat their client.

#AOPA2026 • AOPANET.ORG • AOPAASSEMBLY.ORG

Play the Game with the Best Odds

- Contracts can vary widely on the potential payout.
- Research the potential volume

Know the Odds

- Why is every contract discount rate a factor of 5%?
- Why is every single L-Code discounting the same rate...and all at a factor of 5%?
- Blanket discounting sends a clear message to the payer...you did not do any research and your pricing is arbitrary.

Know When to Walk Away

- Avoid deals where there is no upside.
- High volume and low profit is not long term sustainable.
- Low volume and low profit is a bad bet...walk away

- 
1. Mindset...not your patients...yet!
 2. Invest your time with the best odds
 3. Understand the details and specifics
 4. Have a strategy and gameplan
 5. Research other competing companies
 6. Calculate the potential payout
 7. Know your limits, can you deliver?
 8. Don't bluff, be ready to validate and verify
 9. Know and calculate specific details.
 10. Know when to walk away
