

PRODUCT PROFILE

**Bio- Fertilizer | Bio Stimulants
PGR|Bio-Fungicide|Microbial**

INTRODUCTION

Blogon crop science aims to serve the farmers in a better way & to have more production of the crops. This mission led to the development of products that are "Best in Class". Blogon crop science with its highly potent range of Agriculture products allows farmers to do "Low input-High output Agriculture.

For better yield and sustainable production we manufacture various types of high quality plant nutrition products for all types of crops. The products such as Amino Acids Chelates, EDTA Chelates, Micronutrients Mixture Fertilisers, Organic certified Micronutrients, Organic fertilisers, Organic Acid ,series, Water Soluble fertilisers, Natural Bio stimulants, Spray Adjuvants, Plant Growth Regulators, Soil and Water Conditioners, Bio fertilisers, Bio fungicides, Bio pesticides and certain Crop Specific Fertilizers.

We Blogon Crop Science, have been Collaborated with global Exporters to import the best quality and advanced technology products for our customers to provide the best possible solutions and make farming more profitable and sustainable.

ORGANIC FERTILIZERS & PESTICIDE
BIO FERTILIZERS & PESTICIDE
BOTANICAL FERTILIZERS & PESTICIDE
BIOSTIMULANTS
PLANT GROWTH PROMOTERS
PLANT GROWTH REGULATORS
EDTA MICRONUTRIENTS
ORGANIC NPK. LIQUID
SILICONE SPREADER

PLANT GROWTH PROMOTERS

BLACK GOLD PLUS

Contents: Potassium Humate 98 % & organic materials.

Benefits:

It will enhance root initiation and helps in root growth.

Humic acids that contribute to their faster and more efficient absorption of nutrients by plants.

It improves the taste of fruits and vegetables, increases yields and improves quality.

Stress such as high temperature, low humidity, frost, pest attack, and floods have a negative effect on plant metabolism with a corresponding reduction in plant quality.

The application of humic acids before, during and after the stress conditions supplies the plants with humic acids which are directly related to stress physiology and thus has a preventing and recovering effect.

Doses:

Drip & Soil Application: 500 gm -1 Kg per acre

Foliar Spray: 1 - 1.5 gm per litre

Top dressing- 1kg / Acre

BLACK GOLD

Available Packing- 500gm

Available Packing
500 gm

SUPER POTASH

Contents: Potassium Humate 98% / K₂O 12%

Product Feature:

1. Promote cell division and stimulate growth.
2. Promote root development
3. Enhance cold resistance, cold resistance and disease resistance.
4. Promote flower bud differentiation, reduce the size of fruit.
5. Increase photosynthesis and increase young fruit size
6. Delaying crop senescence and prolonging harvest period.
7. The application of seaweed extracts on plants has good economic benefits stimulates seed germination, increases yield, improves resistance to organism instead of biological stress and prolongs the storage period.

Dosage :

Soil Drenching : Mix 3 gm per liter Drench and around the plant

Foliar Spraying : Mix 1 gm per liter and spray on plant after sunset

Top dressing- 1kg / Acre

PLANT GROWTH PROMOTERS

BLACK DIAMOND

Contents: Potassium Humate 98 % & organic materials.

Benefits:

It will enhance root initiation and helps in root growth.

Humic acids that contribute to their faster and more efficient absorption of nutrients by plants.

It improves the taste of fruits and vegetables, increases yields and improves quality.

Stress such as high temperature, low humidity, frost, pest attack, and floods have a negative effect on plant metabolism with a corresponding reduction in plant quality.

The application of humic acids before, during and after the stress conditions supplies the plants with humic acids which are directly related to stress physiology and thus has a preventing and recovering effect.

Doses:

Drip & Soil Application: 500 gm -1 Kg per acre

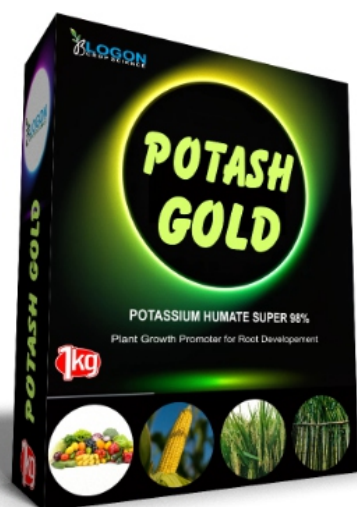

Foliar Spray: 1 - 1.5 gm per litre

Top dressing- 1kg / Acre

BLACK DIAMOND

Available Packing- 500gm

Available Packing
1 kg

POTASH GOLD

Contents: Potassium Humate 98% / K₂O 20%

Product Feature:

1. Promote cell division and stimulate growth.
2. Promote root development
3. Enhance cold resistance, cold resistance and disease resistance.
4. Promote flower bud differentiation, reduce the size of fruit.
5. Increase photosynthesis and increase young fruit size
6. Delaying crop senescence and prolonging harvest period.
7. The application of seaweed extracts on plants has good economic benefits stimulates seed germination, increases yield, improves resistance to organism instead of biological stress and prolongs the storage period.

Dosage :

Soil Drenching : Mix 3 gm per liter Drench and around the plant

Foliar Spraying : Mix 1 gm per liter and spray on plant after sunset

Top dressing- 1kg / Acre

PLANT GROWTH PROMOTERS

POWER PLANT

Source of Zink And Pootassium

Benefits:

- High Quality & 100 % water soluable
- Plant Growth Booster
- Increases Blooming and Fruiting
- Promote Plant Vigor
- Powder form for easy application
- Use on Flowers, Vegetable, Trees & shrubs

Doses:

Drip & Soil Application: 2 -3Kg Per Acre

Foliar Spray: 5-6 gm per litre

Top dressing- 2kg / Acre

Available Packing

1 Kg

SUPER MORCHA

Source of Zink And Pootassium

Benefits:

- High Quality
- Plant Growth Booster
- Increases Blooming and Fruiting
- Promote Plant Vigor
- Granular for easy application
- Use on Flowers, Vegetable, Trees & shrubs

Doses:

Drip & Soil Application: 2 -3Kg Per Acre

Foliar Spray: 5-6 gm per litre

Top dressing- 3-4 kg / Acre

PLANT GROWTH PROMOTERS

SHINY GOLD HUMIC AMINO SHINY BALL

Benefits:

- High Quality
- Plant Growth Booster
- Increases Blooming and Fruiting
- Promote Plant Vigor
- Granular for easy application
- Use on Flowers, Vegetable, Trees & shrubs

Doses:

Soil Application: 2 -3Kg Per Acre

Available Packing
1 Kg

Available Packing
100gm, 250gm, 500 gm

TOOFAN GOLD Pootassium Humate+Multivitamin+Atonic

Benefits:

- High Quality
- Plant Growth and Yields
- Increases Blooming and Fruiting
- Promote Plant Vigor
- 100% water Soluble
- Use on Flowers, Vegetable, Trees & shrubs

Doses:

Drip & Soil Application: 5-16 gm Per liter
Foliar Spray: 1-2 gm per litre

PLANT GROWTH PROMOTERS

Plant growth promoters are Plant hormones That lead to the development and growth of plants. Plant growth promoters perform Growth promoting activities like cell division, cell enlargement pattern formation, tropic growth, flowering, fruiting and seed formation.

GREEN GOLD

Green Gold is a unique product of natural origin having multiple activities as a plant bio-stimulant, an anti-stress agent, a nutritional equilibration, a promoter in the improved use of macro and micro elements and an indirect improver of activity of some enzymatic systems ms to to bring about tremendous boost in quality and quantity of the produce,

Green Gold is produced in a logical consequence of the idea to give the plant readily assimilable nutritional and bio-stimulent elements, directly through the leaves.

The composition of Green Gold is as below:

Zink	3.0%	Lead	0.003%
Copper	1.5%	Dillution	95%
Boron	1.5%	Ph.	4.5+.25
Iron	1.5%	Natural Solvent	Q.S.

DOSE- 2-3 MI/ Liter Water

Available Packing
100ml, 250ml, 500ml, 1lt

FIGHTER

BENEFITS OF FIGHTER

FIRST APPLICATION :

Early Crops stages
Better Foilage
Healthy Flowering
Vigorous Seeding growth
Optimum Nutrient Uptake

SECOND APPLICATION :

Established Crop Stage Profuse branching
Enhanced immune system.

Main ingredient:

Organic matter	48 - 50%min	Alginic acid	12-14%min
Calcium (Ca)	4%	Magnesium(Mg)	1-2%
Boron(B)	1-2%	Copper(Cu)	200-250ppm
Cobalt(Co)	8ppm	Molybdenum(Mo)	5-10ppm
Manganese (Mn)	90-100ppm	Gibbrelin, Auxin, Carboydrates,	Traces

Available Packing
100ml, 250ml, 500ml, 1lt

DOSE- 2-3 MI/ Liter Water

PLANT GROWTH PROMOTERS

Magic Gold

Magic Gold is made from Sea lettuce and other green kelp by cold enzyme treatment with hydrolysis. It provides a great source for readily available potassium, proteins, Carboxylic, auxin, gibberellin and alginates. Solubilized kelp may be applied to the soil, but is more efficient when used for foliar application. Our seaweed extract will benefit plants at any stage of development and promotes rapid plant growth. It can increase the vascular cells of plant stems, accelerate the transportation of water, nutrients and photosynthesis products. Promote plants cell division.

Main ingredient:

Organic matter	48 - 50%min	Alginic acid	12-14%min
Amino acid	20-25%min	Free amino acid	25%min
Total Nitrogen(N) (as organic)	5-6%	Total Phosphate(P) (as organic)	5-6%
Total Potassium (K) (as organic)	10-12%	Sulfur(S)	5-6%
Calcium (Ca)	4%	Magnesium(Mg)	1-2%
Boron(B)	1-2%	Copper(Cu)	200-250ppm
Cobalt(Co)	8ppm	Molybdenum(Mo)	5-10ppm
Manganese (Mn)	90-100ppm	Gibbrellin, Auxin, Carbohydrates, Cytokinin etc.	Traces

Available Packing
100ml, 250ml, 500ml, 1lt

DOSE- 2-3 MI/ Liter Water

FORCE

FORCE HUMIC ACID+ Fulvic Acid + Amino Acid

- (1) It can improve nutrient utilization and improve the crop quality.
- (2) It can be well and quickly absorbed by plants, promote crop precocity and shorten the growth cycle.
- (3) It can enhance metabolic function and stress tolerance.
- (4) It can improve the growth of roots environment and suppress the occurrence of soil-borne diseases. It has obvious effects in promoting continuous cropping.
- (5) It can make soil soft, reduce soil compaction, improve soil quality and improve soil water retention capacity.

EFFICACY

MAIN INGREDIENT

Main ingredient:

Humic Acid	20%	Atonic (sodium nitro phenolate)	3-3.5 gm/l
Fulvic Acid	8%	Cytokine	Traces
Amino Acid	10%	Gibbrellin, Auxin,	Traces

DOSAGE: The recommended quantity of Force is 2-3ml per Liter. It is necessary to apply Force at least two times in single harvest crop

Available Packing
100ml, 250ml, 500ml, 1lt

DOSE- 2-3 MI/ Liter Water

PLANT GROWTH PROMOTERS

Plant growth promoters are Plant hormones That lead to the development and growth of plants. Plant growth promoters perform Growth promoting activities like cell division, cell enlargement pattern formation, tropic growth, flowering, fruiting and seed formation.

VITA GOLD

AMINO ACID 80%

Vita Gold is produced in a logical consequence of the idea to give the plant readily assimilable nutritional and bio-stimulent elements, directly through the leaves.

The composition of Vita Gold is as below:

Organic Fraction Derived amino adds , peptid mixtures inorganic fraction Total Amino Acid	80%min w/w
Aqua gel and aqua water	46% w/w
Ph	6-8
Organic Nitrogen	12%

DOSE- 2-3 MI/ Liter Water

Available Packing
100ml, 250ml, 500ml, 1lt

POWER BOOSTER

BENEFITS : Power Booster is a Plant Growth Regulator.

It effects various stages of development of plants.

Enhances germination and rooting.

Stimulates Vegetative growth and Flower bud development.

Accelerates Pollen germination and pollen tube growth, thus improving flower fertilization and fruit set. Alleviates detrimental effect of stress. Improves health of crops.

Improves quality, increases yields and profits.

DOSE- 2-3 MI/ Liter Water

Available Packing
100ml, 250ml, 500ml, 1lt

PLANT GROWTH PROMOTERS

WINNER

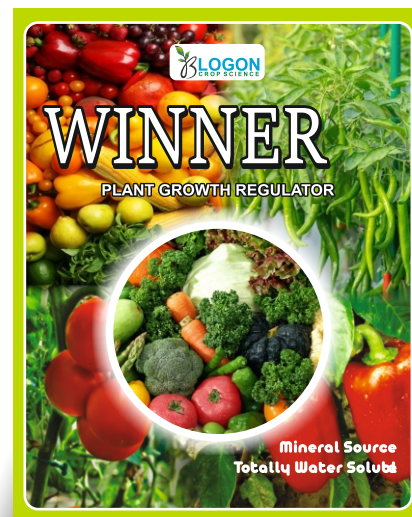

BENEFITS

Increase The Growth Of The Plant. Improves Colour And Quality Of Fruits Vegetable, Flower.
Used To Break Dormancy, Promote Growth And Development, Root Healthy Plants, Prevent Falling Flowers And Fruits, Nutrition And Color Enhancement, Improve Product Quality, Increase Yield, Improve Crop Resistance To Diseases

:: Dosage ::

Foliar Spraying

Mix 1gm Per liter and spray on plant after sunset use it in combination with pesticides and fertilizers to increase medicinal and fertilizer effects.

Available Packing
15gm, 50gm

JALWA

CHARACTER

Increase The Growth Of The Plant. Improves Colour And Quality Of Fruits Vegetable, Flower.
Used To Break Dormancy, Promote Growth And Development, Root Healthy Plants, Prevent Falling Flowers And Fruits, Nutrition And Color Enhancement, Improve Product Quality, Increase Yield, Improve Crop Resistance To Diseases

:: Dosage ::

Foliar Spraying

Mix 12gm- 15 liter and spray on plant after sunset use it in combination with pesticides and fertilizers to increase medicinal and fertilizer effects.

Available Packing
12gm, 50gm

PLANT GROWTH PROMOTERS

BOOSTER

BENEFITS

Increase The Growth Of The Plant. Improves Colour And Quality Of Fruits Vegetable, Flower.
Used To Break Dormancy, Promote Growth And Development, Root Healthy Plants, Prevent Falling Flowers And Fruits, Nutrition And Color Enhancement, Improve Product Quality, Increase Yield, Improve Crop Resistance To Diseases

:: Dosage ::

Foliar Spraying

Mix 6gm - 50 liter and spray on plant after sunset
use it in combination with pesticides and fertilizers
to increase medicinal and fertilizer effects.

Available Packing
6gm(40Pcs Jaar)

COMBI PLUS

Combi Plus is Mixture of essential elements like iron, Manganese, Zinc, Copper, Boron and Molybdenum, It provides balanced nutritional soil to crop, which takes care of nutritional requirement of crops.

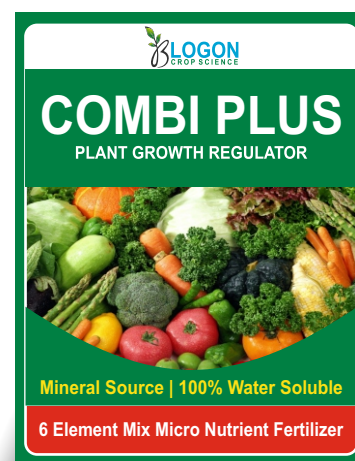

IMPORTANCE

- It helps to increase in Quality of Fruits.
- It helps to increase disease resistance power of crop.
- It helps to avoid damages caused by insects of pests.

DOSAGE FOR FOLIAR SPRAY

First Spray : 1 to 1.5 gm per liter (3-4 week after gemination)

Second Spray : 1 to 1.5 gm per liter (15-20 days after First Spray)

Available Packing
20gm, 50gm

CROP PROTECTION

OUR PRODUCTS

1. Acetobacter
2. Azospirillum
3. Azitivacter
4. Mycorrhizal Biofertilizer
5. Potassium Solubilizing Bacteria
6. Phosphate Solubilizing/Mobilizing Bacteria
7. Rhizobium
8. Zinc Solubilizing Bacteria
9. Liquid Consortia

NUTRA BOOSTER

न्यूट्रा बूस्टर के लाभ:-

- न्यूट्रा बूस्टर तरल जैव उर्वरक के नाइट्रोजन घटक जैविक नाइट्रोजन स्थिरीकरण करते हैं और फसल पौधों को पोषण प्रदान करते हैं।
- मिट्टी की उर्वरता बनाए रखने और फसल उत्पादकता में सुधार करने में मदद करता है।
- न्यूट्रा बूस्टर कार्बनिक एसिड का उत्पादन करता है जो अधुलनशील यौगिकों को घुलनशील बनाने में मदद करता है और फॉस्फोरस, पोटैश, जस्ता और अन्य मैक्रो और सूक्ष्म पोषक तत्वों को पौधों के लिए उपलब्ध कराता है।
- यह प्रारंभिक जड़ विकास को प्रोत्साहित करता है और पौधों के विकास नियामकों और विटामिन और हार्मोन जैसे इंडोल एसिटिक एसिड, साइटोकिनिन, जिबरेलिन जैसे जैविक सक्रिय पदार्थों का उत्पादन करके जड़ विकास को बढ़ाता है जो फसल के विकास और ताकत के लिए फायदेमंद होते हैं।
- यह प्रणालीगत प्रतिरोध को प्रेरित करके पौधे की प्रतिरोधक क्षमता को बढ़ाता है।
- यह बीज के अंकुरण प्रतिशत और दर को बढ़ाता है।
- यह फसलों में फूल, बीज और फलों के विकास को भी सुनिश्चित करता है।
- इसके प्रयोग से फसल उत्पादकता 10-15% तक बढ़ सकती है।

प्रयोग करने की विधि:

- बीज उपचार
- मृदा उपचार
- जड़ उपचार
- ड्रिप प्रणाली, कम दबाव वाले पानी के नोजल के माध्यम से सिंचाई

PSEUDOMONAS FLUORESCENS :

Pseudomonas Fluorescens is a high-efficiency organic biological agent.

It produces antibiotics, nutrient competition, parasitic, cell-wall degradation, enzymes, and induced plant resistance mechanisms.

It suppress plant diseases by protecting the seeds and roots from fungal infections.

CONTROLS SOIL FUNGUS DISEASES :

Pseudomonas Fluorescens improve the soil quality, break the knot, improve the soil permeability and oxygen supply of the root system.

It effectively protects the plant from wilt, root rot, soft rot, blight and damping off effect.

It also controls the rice blast and sheath blight of paddy.

Available Pack- 1kg

DOSE- 2-3 kg /Acre

BACTO POWER is a carrier-based consortia biofertilizer.

It contains a mixture of nitrogen fixing bacteria -

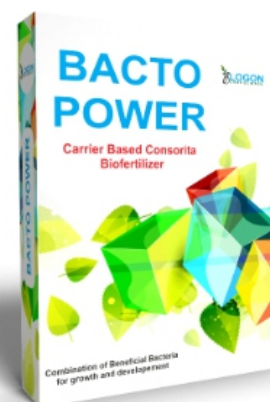

Azotobacter, Rhizobium,

Azospirillum along with Phosphorus solubilizing bacteria

PSB and Potassium

Solubilizing Bacteria KSM for excellent growth and development of all kinds of plants and vegetable

Bacto Power solubilizes insoluble fertilizers in the soil due to which growth of plants increases and salts in the soil decreases, its reduces pH and EC of soil.

Available Pack- 100 gm,250gm,500 gm

DOSE- 2-3 gm / Liter Water

DERMA POWER

Trichoderma harzianum is a bio-fungicide powder containing live Trichoderma harzianum fungus.

This eco-friendly alternative to chemical fungicides helps protect plants from various fungal diseases by colonizing the root zone and enhancing plant defense mechanisms.

Benefits:

Controls a wide range of plant pathogenic fungi.

Enhances plant growth and nutrient uptake.

Improves plant resistance to stress.

Safe and eco-friendly alternative to chemical fungicides.

Available Pack- 1kg

PSB is a carrier-based consortia biofertilizer.

It contains a mixture of nitrogen fixing bacteria - Azotobacter, Rhizobium, Azospirillum along with Phosphorus solubilizing bacteria PSB and Potassium Solubilizing Bacteria KSM for excellent growth and development of all kinds of plants and vegetable.

PSB solubilizes insoluble fertilizers in the soil due to which growth of plants increases and salts in the soil decreases, it reduces pH and EC of soil.

PSB -Phosphate Solubilizing Bacteria

Enhances the bioavailability of phosphorus and thereby;

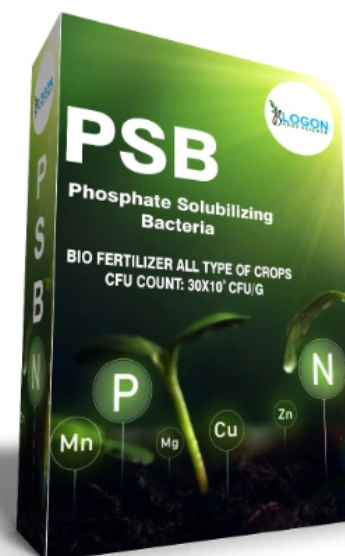

Facilitates cell division, development of cell and DNA formation

Enhances root development particularly of lateral and fibrous roots

Increases flower development and fruit set, hastens crop maturity

Helps in formation of adenosine tri-phosphate (ATP)

Results in high quality seed and increases crop yield

Available Pack- 500 gm, 1kg

DOSE- 1 Kg / Acre

NEMOTO WRACK-HORTICULTURE

तरल कंसोर्सिया नेमाटो रैक के लाभ:-

- तरल कंसोर्सिया नेमाटो रैक पौधों के विकास को बढ़ावा देने वाले राइजोबैक्टीरिया का एक समूह है जो पौधों की जड़ों में बसता है और पौधों द्वारा आसानी से ग्रहण करने के लिए पोषक तत्वों को घुलनशील बनाता है जो पौधों की विकास दर को बढ़ाता है।
- तरल कंसोर्सिया नेमाटो रैक प्रारंभिक जड़ विकास को प्रोत्साहित करता है और पौधों के विकास नियामकों, विटामिन और हार्मोन जैसे इंडोल एसिटिक एसिड, साइटोकिनिन, जिबरेलिन जैसे जैविक सक्रिय पदार्थों का उत्पादन करके जड़ विकास को बढ़ाता है जो फसल के विकास और ताकत के लिए फायदेमंद होते हैं।

- तरल कंसोर्सिया नेमाटो रैक मुख्य रूप से नेमाटोड व्यवहार को विनियमित करके, पौधे-नेमाटोड पहचान में हस्तक्षेप करके, और आवश्यक पोषक तत्वों के लिए प्रतिस्पर्धा करके नेमाटोड की आबादी को कम करता है।
- तरल कंसोर्सिया नेमाटो रैक द्वितीयक मेटाबोलाइट्स, एंजाइम, विषाक्त पदार्थों और एंटीबायोटिक का उत्पादन करता है जो नेमाटोड प्रजनन, अंडे सेने और नेमाटोड के किशोर अस्तित्व को दबा देता है।
- यह प्रणालीगत प्रतिरोध को प्रेरित करके नेमाटोड के खिलाफ पौधे की प्रतिरक्षा को बढ़ाता है।
- इसके प्रयोग से फसल उत्पादकता 10-15% तक बढ़ सकती है।

प्रयोग करने की विधि:

- बीज उपचार
- मृदा उपचार
- जड़ उपचार
- ड्रिप प्रणाली, कम दबाव वाले पानी के नोजल के माध्यम से सिंचाई

NEMOTO WRACK-VEGETABLE

तरल कंसोर्सिया नेमाटो रैक के लाभ:-

- तरल कंसोर्सिया नेमाटो रैक पौधों के विकास को बढ़ावा देने वाले राइजोबैक्टीरिया का एक समूह है जो पौधों की जड़ों में बसता है और पौधों द्वारा आसानी से ग्रहण करने के लिए पोषक तत्वों को घुलनशील बनाता है जो पौधों की विकास दर को बढ़ाता है।
- तरल कंसोर्सिया नेमाटो रैक प्रारंभिक जड़ विकास को प्रोत्साहित करता है और पौधों के विकास नियामकों, विटामिन और हार्मोन जैसे इंडोल एसिटिक एसिड, साइटोकिनिन, जिबरेलिन जैसे जैविक सक्रिय पदार्थों का उत्पादन करके जड़ विकास को बढ़ाता है जो फसल के विकास और ताकत के लिए फायदेमंद होते हैं।

- तरल कंसोर्सिया नेमाटो रैक मुख्य रूप से नेमाटोड व्यवहार को विनियमित करके, पौधे-नेमाटोड पहचान में हस्तक्षेप करके, और आवश्यक पोषक तत्वों के लिए प्रतिस्पर्धा करके नेमाटोड की आबादी को कम करता है।
- तरल कंसोर्सिया नेमाटो रैक द्वितीयक मेटाबोलाइट्स, एंजाइम, विषाक्त पदार्थों और एंटीबायोटिक का उत्पादन करता है जो नेमाटोड प्रजनन, अंडे सेने और नेमाटोड के किशोर अस्तित्व को दबा देता है।

प्रयोग करने की विधि:

- बीज उपचार
- मृदा उपचार
- जड़ उपचार
- ड्रिप प्रणाली, कम दबाव वाले पानी के नोजल के माध्यम से सिंचाई

IMMUNITY-T

इम्यूनिटी-टी के लाभ:-

- यह प्रारंभिक जड़ विकास को प्रोत्साहित करता है और पौधों के विकास नियामकों और विटामिन और हार्मोन जैसे इंडोल एसिटिक एसिड, साइटोकिनिन, जिबरेलिन जैसे जैविक सक्रिय पदार्थों का उत्पादन करके जड़ विकास को बढ़ाता है जो फसल के विकास और ताकत के लिए फायदेमंद होते हैं।
- इम्यूनिटी-टी पौधों में रोगजनक कवक की वृद्धि और गतिविधि को सीमित करता है।
- मिट्टी जनित, बीज जनित और जड़ पादप रोगजनक के विरुद्ध प्रभावी उपाय।

- कोशिका भित्ति को नष्ट करने वाले एंजाइमों का उत्पादन करता है जो उन्हें मिट्टी से उत्पन्न कवक में छेद करने और अपने विकास के लिए पोषक तत्व निकालने की अनुमति देता है।
- इम्यूनिटी-टी मिट्टी में बायोएक्टिव यौगिक छोड़ता है जो विभिन्न बीमारियों के खिलाफ पौधे की रक्षा प्रणाली के रूप में कार्य करता है।
- यह द्वितीयक मेटाबोलाइट्स, एंजाइम, विषाक्त पदार्थों और एंटीबायोटिक का उत्पादन करता है जो रोगजनक कवक के विकास को दबा देता है।
- यह प्रणालीगत प्रतिरोध को प्रेरित करके बीमारियों के खिलाफ पौधे की प्रतिरक्षा को बढ़ाता है।
- इसके प्रयोग से फसल उत्पादकता 10-15% तक बढ़ सकती है।

प्रयोग करने की विधि:

- बीज उपचार
- मृदा उपचार
- जड़ उपचार
- ड्रिप प्रणाली, कम दबाव वाले पानी के नोजल के माध्यम से सिंचाई

CROP PROTECTION

BIO FERTILIZERS

Rhizobium spp.

Paecilomyces lilacinus
Basillus firmus

PLANT GROWTH PROMOTERS

Forchlorfenuron (CPPU) 0.1%
Gibberelic Acid 0.186% SP
Gibberellic Acid 0.001% L
Triacantanol 0.05% GR
Triacantanol 0.05% EC
Triacantanol 0.1% EW
Amino acid Veg soya origion 40, 50, 80%
Source of Rich Amino acids (IB)
Seaweed brown (Ascophyllum Nodosum)
Seaweed green liquid / Powder
Super Potassium Humate- shiny crystal / Flakes
Potassium Humate 36 %
Humic Acid Liquid 20, 40%
Potassium fulvic
Bio stimulants for fruits & vegetables
Formulated Granules

VITAMINS

Folic Acid (B9)
Pyridoxine Hydrochloride (B6)
Thiamine Hydrochloride (B1)
Riboflavin (B2)
Cyanocobalamin (B12)
NATCA(N- Acetyl Thiazolidine-4- Carboxylic Acid)

ORGANIC FERTILIZERS

City Compost
Vermi Compost
Phosphate Rich Organic Manure(PROM)
Organic Manure
Bio Enriched Organic Manure
Fermented Organic Manure
Bone Meal Raw
Bone Meal Steamed
Potash Derived from Rhodophytes
Potash Derived from Molasses (PDM)

INORGANIC NUTRIENTS & MICRONUTRIENTS (EDTA / AMINO CHELATED/ SULPHATED)

EDTA Chelated Zn 12% | Amino Chelated Zn 12%
EDTA Chelated Fe12% | Amino Chelated Fe12%
EDTA Chelated Mg 6% | Amino Chelated Mg 6%
EDTA Chelated Mn12% | Amino Chelated Mn12%
EDTA Chelated Cu 12% | Amino Chelated Cu 12%
EDTA Chelated Ca10% | Amino Chelated Ca10%
Zinc Sulphate Heptaydrate 21%
Zinc Sulphate Monohydrate 33%
Ferrous Sulphate 19%
Magnesium Sulphate 9.5%
Mangnese Sulphate 30.5%
Copper Sulphate 24%
Ammonium molybdate 52%
Potassium Molybdate
Sodium Molybdate
Borax 10.5%
Boron Ethanolamine 10%
Colemanite (B) 11%
Di Sodium Tetra Borate Penta Hydrate (P/Gr) (B)14.5%
Di Sodium Octa Borate Tetra Hydrate (B) 20 %
Anhydrous Borax (B) 20.5%
Conc. Liquid Calcium 11%
Calcium Boron Mix Formulation
EDDHA Fe 6%
Chelated Iron as Fe-HEDP 17%
Potassium Bicarbonate
Zinc Polyphosphate 16%, 15%, 1%
Chelated Zinc as Zn-HEDP 17%
Zinc Oxide Suspension Conc. 39.5%
Dio Potash 18%
Ortho Silicic Acid 2% WSL
Essense Amino Chelated

PLANT ADJUVANTS

Silicon based Super Spreader
Sticker (Soap)
pH, TDS, EC Reducer(Color indicator)

PLANT PROTECTANTS

Chitosan liquid 10%
Salts of Phosphonic acid Liquid 40%
Potassium salts of phosphonic acid Powder 90 %
Hydrogen Peroxide With Nano Silver Particle
Disinfecting Oxidants ClO2
Vitamins (Tonic)
Multi organic acid base Product (Soil Conditioner)

We also offer customized manufacturing of different biofertilizers, biopesticides, plant growth regulators, herbal extracts, organic formulations etc as per the requirement of the customer on charge basis.
