Payment

ⓘ Filing for an extension does not extend the deadline for paying any tax due. If you expect to owe when you file your tax return, you should pay at least 90% of the amount you expect to owe by the original return due date.

Interest is due on all amounts paid after the original return due date.

Penalty will not be due if you:
- Pay at least 90% of your total tax due by 4/18/2022
- File your return by the extended due date
- Pay any remaining tax and interest due when you file your return
