AMERICA'S LEADER IN SAFETY, PERFORMANCE & STYLING.

Since the first Tomberlin® street-legal, Low-Speed Vehicle (LSV) was built, we've remained committed to designing vehicles with an emphasis on safety, performance, and styling while challenging the traditional conventions of what is expected in a Personal Transportation Vehicle (PTV). **We Go Farther.**

E-MERGE SE

tomberlinusa.com

The E-Merge SE is big on features at a great price. Do you expect more out of a low speed vehicle? The SE delivers features not found on top competitors, and Tomberlin makes it all standard. Premium seating, electric power steering, full color instrument panel with reverse camera and an industry exclusive high performance powertrain while riding on smooth steel belted radial tires. Need more? See all the features that are standard on the E-Merge line of vehicles.

We Go Farther by including features like our Smart Park™ automatic parking brake, locking steering column, and unique ignition key. Plus, a powerful 450-amp drivetrain, responsive handling with effortless power steering, and 4-wheel hydraulic braking system give a level of performance not found in other golf or LSV vehicles. Finally, we surround you with styling and features expected only in an automobile with the convenience, freedom, and fun of a neighborhood electric vehicle.
