AMERICA'S LEADER IN SAFETY, PERFORMANCE & STYLING.

Since the first Tomberlin® street-legal, Low-Speed Vehicle (LSV) was built, we've remained committed to designing vehicles with an emphasis on safety, performance, and styling while challenging the traditional conventions of what is expected in a Personal Transportation Vehicle (PTV). **We Go Farther.**

E-MERGE SHADOWHAWK

tomberlinusa.com

The E-Merge Shadowhawk delivers an attitude and look that was pioneered by the Ghosthawk. New features include a 3-inch lift combined with new tires delivering a softer ride, easier entry and exit, and a lower height for standard garages. Upgraded CoolTouch “Vette” seats improve comfort and reduce the sting of hot vinyl on sunny days. Complementing the package is our exclusive Bluetooth audio headliner and deluxe front bumper.

We Go Farther by including features like our Smart Park™ automatic parking brake, locking steering column, and unique ignition key. Plus, a powerful 450-amp drivetrain, responsive handling with effortless power steering, and 4-wheel hydraulic braking system give a level of performance not found in other golf or LSV vehicles. Finally, we surround you with styling and features expected only in an automobile with the convenience, freedom, and fun of a neighborhood electric vehicle.
