

Meats by Rebelstone

Thank you for your interest, our family greatly appreciates your support!

All of our animals are born and raised here by us. We do not use implants or growth hormones and our feed is 100% home grown or locally sourced and milled here on our farm.

We are often asked if our beef is grassfed - the short answer is 'yes'. The longer version on how our animals are raised can be found in our statement titled 'Rebelstone Production Practices'.

REBELSTONE

land & livestock

We allow our beef to hang for 21 days for optimal tenderness. We offer 1/4, 1/2, and whole animals. 1/4's are done as a split side which means you get the full assortment without having to buy an entire 1/2. We also offer custom cutting to suit you and your family's needs.

The meat comes paper wrapped, but we are investigating moving to vac pack.

Our beef is \$6/lb on hanging weight, cutting and wrapping is included in the price. We are requesting a \$250 deposit on commitment and balance at pickup, a receipt will be provided.

Bones, oxtail, tongue and organ meat are available but need to be requested on the cutting instructions.

Let us know if you would like to proceed with an order or if you have any further questions we can help with.

thanks,
Jeremy & Belinda
