

## Park Access

Venetian Isles residents have the right to access the park next to our community, but there is a new security procedure for access to the park.

The park is controlled by the Lake Coral Springs Association, which all the communities around the lake contribute to. A new automated gate was installed along with new playground equipment to prevent vandalism and other mischief in the park. To open the gate, you'll need a security key fob. Venetian Isles residents may obtain two key fobs for \$5 each with proof of residence.

The key fobs must be obtained from the property management firm employed by the Lake Coral Springs Association, not from United Community Management. Contact:
