# Providing Medical Device Solutions

In today's myriad of mergers, alignments, and deceptive marketing, a healthcare executive should be well informed of all options. Comprehensive Equipment Management Corporation pledges to work solely as your advocate; researching options, evaluating emerging and existing technologies and negotiating with third parties to ensure efficient and effective services are provided. Every hospital is different, CEMC will listen to the needs of your facility and provide a client-tailored solution that meets the operational requirements of your organization.

Since we have no vested interest in any medical manufacturer, we offer our clients an objective view of the marketplace and are a true multi-vendor service.

We thank you for your interest in CEMC.

## Provisions Include

- Service contract analysis & cost reduction.
- Consolidation of equipment repairs, vendor invoices, and contracts under one program.
- Improved Control of the purchasing processes with single source accountability.

## Thinking Comprehensive

- |                                 |  |
|---------------------------------|--|
| Medical Device Repair           | Technical Staff Training               |
| Planned Maintenance             | Biomedical Program Consulting          |
| Inventory Management            | Local Support                          |
| Multivendor Service             | Depot Support                          |
| Device Lifecycle Cost Analysis  | Device Security                        |
| Strategic Planning              | Experienced Leadership                 |
| Regulatory Compliance Assurance | Emergency Planning                     |
