V&R Spindle Repair Service LLC is a growing company in the field of spindle repair service in Ponca City OK. The spindle is the heart of any CNC machine. It consists of a rotating assembly with a taper where tool holders may be installed.

We have an opening for a precision spindle repair technician. We are currently seeking a full-time position with experience in spindle repairs or maintenance experience in CNC machines.

**Description of Duties:**

Duties involve tear-down of spindle in need of repair. Tear-down procedure requires written and photographic documentation. Candidate must be able to work with tear-down tools and avoid damaging parts/spindles. Must be able to analyze which components need rework, repair or modifications. Inspects and maintains spindle, electronic, pneumatic mechanical and hydraulic components. Inspects and measures parts to detect wear, misalignment or other problems. Diagnose failures, repair and follow-up on problem solution procedures related to spindles. Inspect and test spindle throughout the assembly. Record test results and required data.

Work from drawings, manufacturer specifications and hand book formula.

Keep tools and work areas clean and organized.

**Knowledge, Skills, and Abilities:**

Must have a good understanding of the fundamentals of industrial mechanics. Proven capability to identify failures, troubleshoot in any spindle machine tool system. Experience with failure analysis & solution. Excellent mechanical aptitude and ability to read and understand complex blueprints & schematics. Ability to comprehend complex mechanics and analyze technical problems. Excellent knowledge of hydraulics, pneumatics, and electrical control systems. Experience with using precision measurement equipment like test indicator, calipers and micrometer. Can figure out better ways to assembly, measure, inspect mechanical components and assemblies. Enjoys troubleshooting. Ability to lift up to 50 lbs.

The perfect candidate has to be detailed oriented and thorough in completing work tasks, being reliable, responsible, and dependable.

**V&R Spindle Repair Service LLC is an Equal Opportunity Employer and offers:**

- Competitive salary
- Paid Vacation
- Paid Holidays
- 100% climate-controlled facility

Take advantage of training and mentorship opportunities while working with highly experienced and expertly trained technicians.
