"Liverpool Hope University welcomes all who seek a sound higher education. It is deeply committed to a culture of research and scholarship, and to preparing its graduates to **serve the common good**. Its educational philosophy is based on the triune quest for **Truth, Beauty and Goodness**."-LHU website.

Why participate in this Creative Arts Tour curated by Liverpool Hope?

Liverpool Hope University kindly hosted Mrs Rowe and me at their University Campus in February 2025 this year on a networking trip organised by Dr Ian Cosh, The Chairman of the Global Consortium of Christian Education. Along with us, were representatives from North Rise University in Zambia and several top American universities; namely, Seton Hall, Carson-Newman, North Park, Ouachita Baptist, George Fox and Oklahoma Baptist.

We were all blown away by the University's overall chic and impressive architecture, its tangible warm and supportive environment, and by the effervescent personalities of the lecturers at the Creative Campus. Their passion was simultaneously contagious and inspirational! From enabling prisoners to publish their own book, to organising a Eurovision experience for Special Needs Schools, the University showcased the latent transformational power of the Arts. Amongst other projects, they have: used Theatre for Addiction Recovery; facilitated work with Migrant Artists; created awareness for Neurodiversity with 'ADHD The Musical'; worked with Dementia patients; arranged dance lessons for those with Parkinsons; and have used ceramics as therapy for women who have been trafficked...In short, we could all learn so much from their creative drive and heart for community. **Our goal for this tour is to take everything we learn at Liverpool Hope University, have a blast, and start making a powerful difference in Zimbabwean society by using our creative talents -all whilst enriching ourselves!**

-Samantha Ker (MA Open Translation), Live & Learn Student Centre Coordinator.

About Live & Learn Student Centre

Live and Learn Student Centre is passionate about pedagogy and Continued Professional and Personal Development. We are a centre facility that aims to provide clients with a myriad of online, local and international courses to explore. Whether you are a gap year student, a student waiting on visas, or doing a degree fully online, there is something for you. Through consultation, we will curate different suitable options for you and guide you towards your career goals. This year we have launched IT courses for ICDL, Spanish and Guitar lessons, as well as workshops centred around nutrition, team building for corporates and professional development for teachers.

We are fortunate to have a strong professional network with Northrise University, Liverpool Hope University, Swiss Education Group, Bellavista, and numerous Christian American Universities. At Live and Learn, we highly value foreign experiences, yet recognise the need for Zimbabweans to use these experiences and knowledge to make a difference on our own home soil.

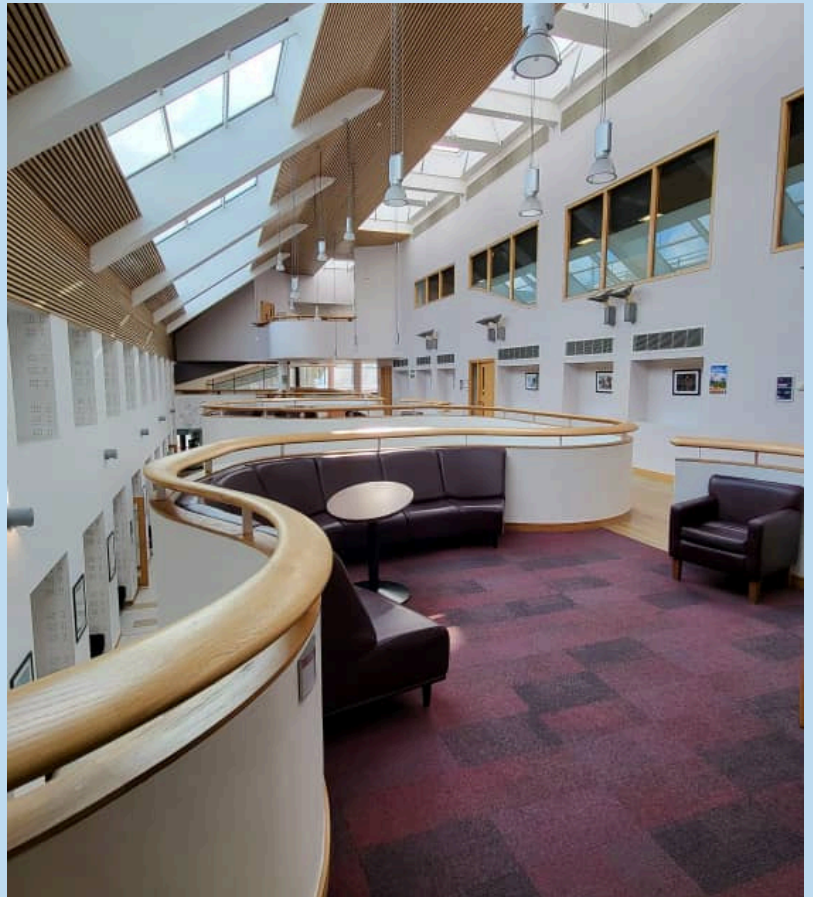

From this desire to curb the massive brain and youth drain we have seen in Zimbabwe, was our centre conceived. Our aim is to provide online students and our community with all the trimmings of first-world countries to satisfy their itchy feet, but to encourage them to care about nurturing the seeds and roots that God has given us in our unique country.

This is why we are so excited about launching our first tours to our partners in Switzerland and at Liverpool Hope University in the UK. Our Creative Arts Tour aims to give attendees a worry-free, immersive experience in 'The Capital of Pop', whilst firmly exploring the intricate link between the Arts, community capacity building, and individual expression. Let's use this time to pour into ourselves and reach our full creative potential!

COURSE SUMMARY

"The group will explore each art discipline in response to Liverpool as a city. In Art, you can explore a number of techniques for creating paintings/prints that can be applied when interacting with the city. In Music, we have looked at capturing urban soundscapes and using the recordings to inspire compositions. In Dance, we often consider the body in space and urban psychogeography, considering its influence on the movement of people in the city. With Film/Photography, we often examine an established portfolio of work by a selected artist, study their style and then reproduce it through our own practical application in the city of Liverpool"- Dr Malone. ***This program is accredited.**
