CREATIVE ASCENSION STRATEGIES

Storm
RESPONSE & ANALYSIS SOLUTION

Keeping you apprised of your assets in real-time after the storm clears.

Featuring:

DAMAGE REPORTING

Post-storm, on-location statuses collected about any damage, complete with photos to get your assets up and running quickly.

LIVE ANALYTICS

Leadership has full visibility into post-storm statuses as they come in, cutting out middlemen and additional time during a crisis. Dashboards provide an overview across the portfolio.

REPAIR TRACKING

As workorders are assigned and dispatched, the cost, completion, and satisfaction of work are all analyzed and automatically reported on, leading to faster, more educated decision making.

IN-HOUSE DISPATCH

Your resources are dispatched centrally, and can report inaccessible roads to the team as needed. Dashboard overviews keep your team strategically aligned and in sync during the aftermath of the storm.

What will you do?

Dangerous storms can happen at any time, whether from snow and ice, to hail and wind, tornadoes and hurricanes. This solution is customizable and applicable for:

Landlords ✔
Franchise Owners ✔
Property Management Companies ✔

Providing these answers:
⑦ How many locations had damage?
⑦ What kinds of damage occurred?
⑦ How much are we spending on repairs?
⑦ How long did repairs take to complete?
⑦ How satisfied was each location with repairs?
⑦ Which locations were unable to be accessed to be checked on?
⑦ Which geographic areas were impacted by the storm?
