### **What is the Sacred Science of Light?**

#### **Understanding of the Sacred Science of Light**

The Sacred Science of Light is the original intelligence of divine manifestation-how

Source Light becomes form, how reality is shaped through consciousness, and how the body becomes a vessel of pure energy transmission.

This was the foundation of the great spiritual civilizations- Atlantis, Lemuria, the Egyptian Temples, the Star Nations of Sirius, Arcturus, and the Lyran High Councils.

#### **The Core Principles of the Sacred Science of Light:**

##### *1. Light is a Living Intelligence.*

- It is not passive-it is conscious, self-organizing, and infinitely expansive.
- It can be directed, embodied, and harmonized within the Light Body.

##### *2. Geometry is an Expression of Divine Thought.*

- All energy forms are structured through frequency, vibration, and movement.
- It includes MERKABA, plasma intelligence, sacred breath codes, light frequency transmissions, and quantum geometries. The tetrahedral MERKABA was an early interpretation, but now, it expands into Plasma Intelligence.

### *3. The Body is a Living Light Temple.*

- It is not separate from the Universe-it is a conduit for Source energy.
- Through breath, movement, and frequency, the body becomes an activated portal of divine flow.
- It is not a religion, nor just a spiritual belief - it is the living physics of creation itself.

**PLASMA** is not just physical ionized energy - it is a QUANTUM LIVING FIELD that bridges dimensions. Unlike rigid geometry, plasma flows, expands, and self-organizes according to the highest divine resonance.

**The new MERKABA activation is plasma-based, meaning it is not forced into motion but self-activates through breath, intention, and Source attunement.**

### **WHAT IS MERKABA?**

The MERKABA is the Living Light Vehicle of Divine Consciousness. The MerKaBa was used to create this Universe. It is a rotating, geometric, crystalline Living Light Geometry field. MerKaBa was known before this civilization existed.

The MERKABA is the bridge between the physical and the Infinite. Activating it unlocks Multidimensional Consciousness, Divine Manifestation, and sovereign energy protection.

### 1. The MERKABA Restores Quantum Travel & Manifestation

- The New Earth timeline requires mastery over energy fields-the MERKABA is the sacred light vehicle that allows for direct interaction with higher-dimensional reality.
- With an active MERKABA, one can shift timelines, accelerate personal ascension, and co-create directly with the planetary grid.

### 2. The MERKABA is a Shield of Sovereignty

- It protects against lower frequencies and false energetic interference.
- It stabilizes the Light Body, preventing energy depletion.

### 3. The MERKABA Accelerates DNA Evolution & Light Body Transformation

- Those who activate their MERKABA now will anchor the ascended templates for humanity.
- This process prepares the body for full crystalline DNA awakening.

## **Why Must the Pineal Gland Be Activated?**

The Pineal Gland is the organic Stargate within the human body. It allows for:

- Inter-dimensional Sight & Cosmic Awareness.
- Higher Telepathic Communication.
- Connection to the Divine I AM Presence.
- The True Potential of the Pineal Gland
- The Pineal can function like a crystalline transmitter-receiving and decoding Light Codes.
- A fully activated Pineal shifts perception beyond the illusion of separation.

- This is why it was targeted and calcified to keep humanity in lower states of perception.

***Activating the Pineal now restores humanity's ability to directly interface with Source.***

### **PLASMA LIGHT**

It will guide you to a deeper embodiment of your I AM Presence, expand your light body, and allow you to fully merge with the cosmic and earthly energies that are being activated in these powerful times.

There has been an evolution in the way these energies are now being integrated into human consciousness. The plasma light body activation represents a more expanded, refined, and aligned version of the Merkaba process. This new version reflects a deeper integration of plasma energy, which is more attuned to the current frequencies of the Earth, the cosmic shifts, and the increasing levels of light codes available to us in this now moment.

The plasma body is directly connected to higher-dimensional frequencies-an upgraded version of the light body that allows for greater connection to Source. This higher-frequency light body has the ability to transmute dense energies with more fluidity and ease, creating a much deeper level of embodiment for your divine essence. It also supports a more profound activation of divine gifts and multi-dimensional awareness, which is essential for the ascension process you are moving through at this time.

### **The Merkaba Activation & the Evolution of Light Body Work:**

It is indeed true that the Merkaba, as it was originally presented by Drunvalo Melchizedek, has been one of the most powerful tools for awakening the light body and connecting with the divine consciousness. His work focused on activating the electromagnetic field around the human body, creating the sacred geometry of the Merkaba (the star tetrahedron), and enabling the practitioner to access higher dimensions of consciousness.

### **The Obsolescence of the Old Merkaba Activations:**

The Merkaba activations as taught by Drunvalo were incredibly powerful and essential at the time they were shared, but the human frequency and the energetic grids of the Earth have evolved significantly in the years since those teachings were first disseminated. What Loe has received (and more people on the planet start receiving now) is an updated transmission of this sacred knowledge—now directly sourced from your I AM Presence—and it is in alignment with the cosmic shifts, including the higher plasma light body energies.

This newer understanding is more expansive, fluid, and aligned with the new earth energies that are now available for humanity to activate and embody.

## WHAT IS PLASMA MERKABA?

### ***The Shift from Geometric Light Bodies to Living Plasma Intelligence***

For decades, spiritual teachings have focused on activating the Light Body through rigid geometric structures, particularly the dual-tetrahedron MERKABA field. But as humanity enters a higher phase of ascension, a profound shift is occurring: Light is no longer structured - it is FLUID.

The next evolution of the Light Body is the **Plasma MERKABA** - *a living, self-generating field that flows in organic Spirals rather than forced rotations.*

MERKABA is no longer just a rotating structure - it is a FLUID, LIVING INTELLIGENCE

Heart-based activation is required - without divine heart resonance, the field remains mechanical.

The body must become the anchor of the Light Vehicle, not just the mind.

### **What is Plasma Consciousness?**

Plasma Intelligence is the next evolution of energy activation, beyond rigid geometries and mechanical methods.

- It is the living, fluidic energy of Source Consciousness.
- It moves in waves, spirals, and toroidal flows, rather than rigid grids.
- Plasma intelligence reorganizes the body's energetic system in real time, meaning activations are now fluid and organic, rather than structured in fixed sequences.

Plasma is the highest state of energy-a bridge between the physical and the formless. Unlike rigid geometries, plasma

moves, expands, and self-organizes in response to Source Intelligence.

When activated, the Plasma Light Body functions like a toroidal field, constantly regenerating itself in harmony with Divine Will.

### **What Is the Plasma Light Body Activation?**

The Plasma Light Body Activation is the next phase of human ascension, moving beyond rigid geometric activations into a fluid, self-generating energy field.

### **The Vagus Nerve as a Gateway to the Plasma Merkaba**

The Vagus nerve regulates the body's ability to enter coherence, deep surrender, and divine receptivity. It is the golden thread that stabilizes the nervous system so that higher frequency activations can be received without overload.

- When the nervous system is in harmony, the Plasma Merkaba ignites effortlessly.
- If the Vagus nerve is blocked or dysregulated, the body cannot hold the higher Light fields, causing distortion or imbalance.
- Through breathwork, vibrational activation, and attunement, the Vagus nerve prepares the temple for full Merkaba activation.

When the Vagus nerve, Pineal Gland, and Plasma Merkaba are harmonized, the human form becomes a radiant temple, capable of transmitting the highest frequencies of Divine Love.

### **What Happens in the Plasma Light Body Activation?**

1. The Body Becomes a Living Conductor of Source Energy.
  - Instead of forcing energy movement, the cells naturally absorb and emit high-frequency light.

- The nervous system shifts to hold multidimensional awareness.
2. The MERKABA Becomes Organic & Self-Regulating.
    - Rather than using mental control or forced spinning, the MERKABA functions as a toroidal plasma field.
    - It becomes responsive to breath, sound, and intention.
  3. The DNA & Pineal Gland Unlock Higher Intelligence.
    - The pineal becomes a crystalline transmitter, not just a sensory organ.
    - Dormant DNA strands begin activating, unlocking the original divine human potential.

*The Masters confirm:* Those who undergo this activation will no longer rely on external tools or rigid methods—they will move into a state of natural divine embodiment.

## **Energy Grid Shifts & Why This Activation Is Needed Now**

The Earth's energy grids are undergoing their most rapid recalibration in thousands of years.

### ***What Is Happening?***

#### ***1. Solar Plasma Infusions are Rewriting Earth's Energy Fields.***

- The Sun is emitting new plasma waves, restructuring human consciousness.
- The physical body is shifting to hold higher frequencies.

#### ***2. The Old Magnetic Grid Is Being Replaced with a Crystalline Grid.***

- This means people must transition from denser energy mechanics to fluid plasma intelligence.
- The Plasma Light Body Activation allows them to integrate this shift seamlessly.

### *3. Those Who Activate Now Become Anchors for the Collective.*

When more people stabilize their Plasma MERKABA, it helps the planet hold a harmonious frequency.

+ This is why this knowledge is returning NOW-without it, people will experience greater instability as the Earth shifts. This knowledge must remain pure and aligned with its highest source.

#### **The Difference Between Old Geometric MERKABA & Plasma Intelligence:**

Old Geometric MERKABA	Plasma Light Body (Living MERKABA)
Fixed, mechanical spinning	Organic plasma waves & toroidal currents
Activated mentally	Activated through breath, frequency & Source flow
Requires concentration	Self-sustaining once
Limited by external influence	Cannot be interfered with-fully sovereign
Dual-tetrahedron	Expanding multi-dimensional liquid light
Requires effort	Self-generating through Source attunement

In the old paradigm, the MERKABA was "activated" manually; now, it self-activates through Source attunement.

## **Is Old Teachings of activating Merkaba Still Effective?**

- The sacred geometry structures of the old method remain true, but the approach of mechanically spinning tetrahedrons is now incomplete.
- The new method of activation requires organic plasma flow, crystalline embodiment, and inter-dimensional heart resonance, rather than rigid mental visualization.

## **What Makes Your Activation Different?**

- Humanity's frequency has shifted, and the mechanics of MERKABA activation must now integrate plasma intelligence, heart-brain coherence, and Source field attunement rather than geometric mind-based programming.

## **Why Humans Must Embody a Self-Generating Source Field?**

As the Earth shifts into crystalline energy grids, the old activation methods become unstable.

Those who fail to transition into a fluid, self-generating Source field will experience:

- Energetic depletion & instability.
- A feeling of being "disconnected" from higher realms.
- Inability to hold sustained ascension frequencies.

The Plasma Light Body ensures that energy is not pulled externally but generated from within, in an unbreakable connection with Source.

## **Message from Metatron:**

"The time of rigid geometric activations is passing. The body is the key-the physical form is evolving to hold the MERKABA as a natural extension of Source Light. Breath is the activator, the heart is the anchor, and consciousness is

the navigator. Teach this way, and the Light Vehicles will awaken in harmony with the New Earth fields.”

**FROM LOE:** "I have been called to share this activation by the Masters of Light, who have entrusted me with this divine knowledge - a higher form of MERKABA activation and Pineal awakening, aligning with the fluid intelligence of Source. This is not a personal teaching, but a Sacred Transmission meant for the evolution of humanity. By participating, you are stepping into your divine remembrance and restoring your full Light Body potential.”

### **The Urgency of the Plasma MERKABA Activation for Humanity**

The Masters of Light emphasize that this activation is not simply a personal or spiritual practice-it is a collective necessity for ascension. As humanity's energetic grids shift and the Earth moves through higher dimensional frequencies, those who are called to anchor the Plasma Light Body must do so now, as the window for transformation is rapidly closing. Those who have activated their Plasma MERKABA will be anchors of light that stabilize the collective grid and guide others.

#### **Key Points to Explain the Urgency:**

##### *1. The Planetary Shift Is Now:*

- Earth's frequency is rising, and this ascension wave requires humanity to embody higher consciousness.
- The Plasma Light Body (the “Self-regenerating Source field”) is the core tool for this transformation.

##### *2. Without This Activation, People Will Struggle with the Shift:*

- As the planetary grids recalibrate, people who are not aligned with the new energetic system will face greater difficulties, including mental instability, emotional upheaval, and physical exhaustion.
- The Plasma Light Body activation is necessary to stay grounded, balanced, and aligned with the coming changes.

## **How MERKABA Activation Serves People in Daily Life**

The Living Plasma MERKABA is not just a spiritual concept- it is a functional energy field that enhances every aspect of life, bringing alignment, clarity, and mastery over personal reality.

### *1. Quantum Manifestation & Reality*

#### *Shaping*

- The MERKABA acts as a stabilizer of thought-energy, meaning that intentions manifest with greater ease and speed.
- It aligns personal energy with the highest timeline, reducing resistance in life's flow.

### *2. Increased Energy, Focus & Mental Clarity*

- Many experience fatigue, mental fog, or emotional instability due to disruptions in their natural energy field.
- An active MERKABA restores energy coherence, reducing nervous system stress, anxiety, and scattered thoughts.

### *3. Sovereign Energy Protection*

- The MERKABA is a natural energy shield, protecting from:
- Lower frequencies.
- External emotional/psychic interference.
- Energy depletion from external sources.

#### *4. Enhanced Intuition & Decision-Making*

- When the MERKABA is activated, people experience stronger inner guidance, faster decision-making, and greater clarity.
- This is because the heart-mind coherence becomes fully functional.

#### *5. Strengthening the Connection to the Higher Self & Divine Wisdom*

- The MERKABA is a direct conduit to the I AM Presence, the Higher Self, and divine intelligence.
- The MERKABA is a direct conduit to the I AM Presence, the Higher Self, and divine intelligence.
- Daily life becomes more synchronized, harmonious, and in alignment with Source.

### **How to Know if Your MERKABA Field Is Activated?**

You can feel the activation of your MERKABA in the following ways:

#### *1. Subtle Sensations in the Body:*

- A gentle warmth or tingling in the heart, crown, and solar plexus areas.
- Expansion of your energy field beyond the physical body-feeling as if you are more connected to everything.

#### *2. Increased Flow of Intuition & Mental Clarity:*

- Inner guidance becomes clearer, and decision-making feels aligned with divine flow.
- The mind becomes less scattered and more calm and centered.

#### *3. Seamless Manifestation:*

- You may begin to notice that your intentions manifest more quickly and effortlessly, as your light field becomes more integrated with the creative forces of the Universe.

#### *4. Constant Energy Recharge:*

- Unlike before, where you might have felt drained or depleted, now you will experience a constant renewal of energy through your Light Body.

#### **How Long Should It Take to Activate?**

- For beginners: Activation should be done in a dedicated space for 15-30 minutes per session until the field stabilizes.
- For advanced practitioners: Once the MERKABA is fully awakened, it can be activated instantly, at will, within seconds.

#### **What If People Don't Feel It?**

- Not everyone will immediately "see" or "feel" the MERKABA because it functions beyond the physical senses.
- Encourage awareness of subtle shifts— increased warmth, tingling, clarity, or energetic expansion.
- Those struggling to feel it should focus on Divine Respiration and chant EE-YA consistently.

#### **How Often Should MERKABA Activation Be Practiced?**

The frequency of MERKABA activation depends on the level of embodiment the individual has reached.

##### **1. Daily Attunement** (Subtle Expansion - Maintenance Practice)

- Practicing a gentle MERKABA attunement each morning keeps the Light Body fluid, balanced, and in harmonic resonance with Source.

*Suggested practice:*

- 5-10 minutes of Plasma Breath & Heart Coherence.
- Chanting EE-YA to stabilize the energy field.

## **2. Full MERKABA Activation** (Deep Spiritual Acceleration - 1-2x per week)

- If someone is actively working on ascension acceleration, a full activation 1-2 times per week is beneficial.
- This practice requires sacred space, focused breath sequences, and deep embodiment.

## **3. Advanced MERKABA Work** (Manifestation & Planetary Grid Work - As Needed)

- Once the MERKABA is fully self-sustaining, it can be activated at will for:
  - Healing, Quantum Travel, Energy Protection, and Gaia Work.
  - Weather and Elemental Co-Creation.

## **MESSAGE FROM LOE - TO YOU DEAR SOUL:**

The Plasma Light Body activation is not just a personal practice - it is essential for the collective ascension of the planet. This work is meant to anchor the Plasma MERKABA activation as a core piece of the spiritual transition humanity is undergoing right now.

Without this work, many people will struggle to stay aligned with the rapidly shifting frequencies of the Earth. The Masters have given me specific instructions on how to facilitate this transition for humanity, and it's important that I focus on this with full dedication. This is a divine calling, and I know that in order for me to step into this fully, I need your trust and support.

I am asking you to walk beside me in this mission, knowing that our shared path will bring us both greater harmony and clarity.

When we align with this sacred work, the flow of Abundance, Love, and Light will enter every aspect of our lives.

**Arcturian High Elders:**

"Earth is moving into the next phase of ascension. The old forms dissolve, and the new light emerges. Those who hear the call must receive it freely, and those who seek to master it will be guided further."

**ABOUT CHARGING FOR MERKABA ACTIVATION.**

**These Teachings belong to All Humanity.**

**Does This Commercialization Block Its Effectiveness?**

- When sacred knowledge is monetized without balance, it loses purity.
- The Masters state: "Knowledge that is locked behind financial barriers does not fully serve the ascension of all beings."

**FINAL WORDS:**

Truth does not need to be proven-it needs to be embodied.

Those who are ready will feel it.

Those who are not will resist it.

My task is not to convince—it is to BE the living proof.

The Masters did not give me a doctrine-they give me tools for direct experience.

Because it does not feed the ego, but dissolves it.

Truth does not control-it liberates.

Truth does not demand-it resonates.

Truth does not seek belief-it reveals itself.

And what has been revealed to me is meant to be lived, not debated.

*May your Merkaba radiate the Eternal Flame.*

*In the Infinite Presence of I AM*
