HEATHER BARRON - SHANE IVAN NASH - DELIA RAWDON

Key Speakers: Celia Daniels, Sydney Rogers

Other speakers: Delia Rawdon / Quin, Calista Termini,  
Jaxon Cat Williams, Stephanie Wade

# THE BIRTH OF LONG BEACH TRANS PRIDE

Long Beach Trans Pride Festival is a one-day event to highlight, empower, inspire and normalize our vibrant Trans and Non-binary community, and to show strength in unity with Trans folks. The event was inspired by Alexa Castanon, supported by Angel Macias, and produced by California Families in Focus, a 501c(3) nonprofit, in collaboration with a few other allied community organizations and businesses.

Alexa's inspiration to create this festival came because she wanted a big platform to highlight transgender people who live, work and thrive in Long Beach. She pitched an idea to Angel Macias to create the "Angel's on Earth" Christmas awards banquet to highlight members of the Trans community who were going above and beyond to help the community but who receive no compensation for their services.

Angel Macias put her own money and resources into creating an amazing "Angels on Earth" Christmas Dinner and Awards recognition. She was so inspired by the stories of all the award recipients that she wanted to do more to support the Trans community. So, she agreed to use her privilege and connections to advocate for members of the Trans community, and to use her platform to spread the message that members of the Trans community must be treated with the same respect and dignity as every other human being, and that their lives are just as valuable and as important as our cis gender community.

After attending vigils and rallies to denounce the tragic killings of Trans women of color, Angel decided to go "all in". Thus, between Angel, Alexa and some of the other Trans members at California Families in Focus, the Long Beach Trans Pride Festival was born. Here, young, talented, caring and courageous members of our Long Beach community will be called upon to use their voice to educate, elevate and encourage every Trans and gender non-conforming member of our community.

# GILEAD

At Gilead, we're committed to creating a healthier world for everyone – no matter the challenges ahead of us. For more than 30 years, we've pursued the impossible, chased it down, tackled it for answers and surrounded it for a way in. We have worked tirelessly to bring forward medicines for life-threatening diseases.

Through bold and transformative science, we're driving innovation that has the potential to become the next generation of life-changing medicines. Our ambition is evident in our mission. Because the impossible is not impossible. It's what's next.

# BIENESTAR

Bienestar is the first agency in Southern California with a specific program leading and supporting HIV prevention, STI and PrEP services and other services that are important and necessary as well as social and human services for Latina transgender women.

The United Transgender program was carried out as a dream that came true in 1997, where the intention is to form the program with all the intention of serving and helping transwomen

who are vulnerable, abused, forgotten and who continue to be target of attack for discrimination.

The focus of this program is to rescue trans women with dignity and offer high quality services and empower them to continue with their lives with more strength and to realize all their possible dreams specifically to help trans women living with HIV/AIDS to help to opt for a healthier life with medical, emotional and drug and alcohol problems and homelessness.

BIENESTAR has 6 AGENCIES right here in Los Angeles County, in each center they lead trans women as staff and some volunteers who specialize in offering specific services for trans women themselves in the different centers it offers and with which it has BIENESTAR.

## Trans Wellness at APLA Health

aims to provide a safe, affirming space for the transgender, gender-diverse, and intersex (TGI) community. We ensure a space that both is and promotes equitable healthcare. We understand that every individual's journey is unique, and are here to assist folks in their transition, no matter what it looks or where they may be at in their journey.

To speak with a trans patient advocate, please call: **323.329.9388**

## About APLA Health:

APLA Health restores dignity and trust within underserved communities by providing world-class LGBTQ+ empowering healthcare, support services, and HIV specialty care.

With 7 medical/dental/behavioral health sites throughout Los Angeles County, everyone is welcome at APLA Health, regardless of things like their ability to pay for care or immigration status. We accept a number of commercial health plans, depending on the services you are seeking, and have enrollment specialists available to walk you through getting started, or qualifying for a plan if you do not have insurance. APLA Health is proud to have a transgender-led program focused on expanding access to transgender care in Los Angeles County.

The TransLatin@ Coalition (TLC) was founded in 2009 by a group of Transgender and Gender nonconforming and Intersex (TGI) immigrant women in Los Angeles, California, as a grassroots response to address the specific needs of TGI Latin@ immigrants who live in the United States. Since then, the agency has become a nationally recognized organization with representation in 10 different states across the U.S. and provides direct services to TGI individuals in Los Angeles.

We work closely with community partners and healthcare providers to deliver services and education that will improve the health of the transgender community and provide continuity of care. Our program includes specialists and experts in patient education, comprehensive male-to-female and female-to-male gender-affirming surgeries, complex revision surgeries and more.

Mental Health America of LA's work is driven by its commitment to promote mental health as a critical part of overall wellness, including prevention services for all; early identification and intervention for those at risk; integrated care, services, and supports for those who need them; with recovery as the goal.

Our mission is to develop and provide positive and innovative events and social service programs for youth and their families to achieve empowerment and purpose. Our primary focus is on developing the "whole child" and providing tools to prepare them for the workforce and society, and to help them achieve their full potential. CFF takes a holistic approach to accomplish these objectives.
