

New Applicant Questionnaire

We would like to get to know you and your experiences. Please answer the following questions and provide as much details as necessary to help us understand your answer.

1. How familiar are you with reading and interpreting blueprints and/or electrical drawings?

2. Describe some of your most recent construction projects.

3. Give me an example of a time when you had little or no direction in solving an issue with a project? What did you do to complete the project?

4. Tell me about a suggestion you made on the job that was implemented.

5. Tell us about the biggest roadblocks you have encountered during a project. How did you resolve them?

6. List tools specific to the construction industry that you have experience using.

7. List tools specific to the construction industry that you require training or instruction or have no experience using.
