

Weekly ZOOM housing discussions for Gallup

The McKinley County Health Alliance Housing Health Impact Assessment will be hosting weekly open Community Listening Sessions on Housing in Gallup, online via zoom, Thursday nights at 7pm, through December* and January (*no sessions Dec. 24th or 31st).

What policies can make sure that everyone in Gallup has safe, stable housing? Our most important stakeholders are community members most directly impacted by housing policy in Gallup, particularly those who have experienced homelessness or housing instability, or are at risk of homelessness or housing instability. Please join us if you are a community member who has experienced housing issues! Community members will receive \$10 gift cards for their participation.
