2007243**

The McKinley Education Foundation (MEF) is **looking for board members willing to dedicate volunteer time** to attend meetings, evaluate grant applications and promote the mission of the foundation. What we do and what we are about can be viewed at the website <https://www.mckinleykids.org>. The MEF was established back in 2007 as a 501(c)3 nonprofit Corporation. Originally, the goal was to foster teacher creativity by assessing submitted project enhancement teaching plans and awarding a small monetary grants (\$300 to \$600) for purchasing materials, props and books to fulfill the project implementation. The only requirement is that the teacher submit a final project implementation report and critique - any materials, books or items left over would then become the property of GMC Schools. This was carried out from 2007 to pre-COVID, we are looking to re-start these **teacher mini-grant program** now. Qualified applications are awarded on a first come, first served basis from GMCS teachers.
