OUR STORY

At the New Mexico Social Justice & Equity Institute (NMSJEI), we are dedicated to transforming systems that have perpetuated health disparities resulting from the long-lasting effects of uranium mining, institutional racism targeting Indigenous communities, and intergenerational trauma. Our mission is to advocate for social justice and equity by engaging our community, providing education and resources, and promoting collective action.

“Our Tradition has always been to protect out children, land and culture. It is our duty and responsibility.”

Peterson Zah
First Navajo Nation President
Low Mountain, Arizona

INFORMATION

ENGAGE OUR COMMUNITY

We believe in the power of education, historical and institutional knowledge and the sacredness to communities to drive meaningful change. By fostering collaboration and partnerships, build community members to actively participate in public and policy change arenas.

EDUCATE AND MOBILIZE

Through our efforts, we aim to equip and mobilize informed individuals within our community to address critical issues and improve their quality of life. By providing the necessary resources and support, we empower them to take action.

HEALTH IMPACT ASSESSMENTS

As advocates for healthier communities, we sponsor trainings and offer technical assistance on conducting health impact assessments. This evidence-based assessment tool provides recommendations to inform decision-making processes, maximizing positive health impacts and minimizing negative effects of proposed policies, programs, and projects.
