## NAVAJO AREA INDIAN HEALTH SERVICE COVID-19 VACCINATION SCHEDULE FOR JANUARY 2022

Window Rock, Arizona — Navajo Area Indian Health Service (NAIHS) service units continue to offer COVID-19 vaccines at local health facilities. COVID-19 vaccinations are now recommended for everyone 5 years and older.

CDC recommends getting a COVID-19 vaccination as soon as possible. This allows everyone in the family to receive a vaccination and further protect our communities. Recent CDC guidance states that people who initially received two doses of the Pfizer or Moderna COVID-19 vaccine can now receive a Pfizer or Moderna booster shot 5 months after completing their initial series.

COVID-19 vaccines are safe and effective. Fully vaccinated individuals have a high degree of protection against serious illness and death from COVID-19. Unvaccinated individuals are not protected against serious illness, hospitalization, and death.

To protect yourself and your loved ones from COVID-19:

1. Get Vaccinated.
2. Get the 2<sup>nd</sup> dose of COVID-vaccine and the booster or 3<sup>rd</sup> dose, if you are eligible.
3. Wear a mask.
4. Wash your hands.
5. Watch your distance (keep 6 feet or more apart).

Protecting yourself will help to protect those around you who may not be able to get a vaccinated.

Frequently asked questions about the COVID-19 vaccines, including information on vaccine safety, are available from the CDC at: <https://www.cdc.gov/coronavirus/2019-ncov/vaccines/faq.html>

Many of the events listed below, as noted, offer both COVID-19 vaccinations and Influenza vaccinations. The events are subject to change based on weather and other factors. Bring your COVID-19 vaccination card.

| <b>CHINLE SERVICE UNIT</b>  |   |
|---|---|
| <p><b>Chinle Comprehensive Health Care Facility Pediatric Outpatient Clinic</b></p> | <p><b>Monday through Friday, 8 am to 5 pm; Closed 12:00 pm – 1:00 pm for lunch</b></p> <p>Check in at the Pediatric clinic.</p> <p>Moderna COVID-19 vaccines (second doses) are available for ages 18 years and older.</p> <p>Pfizer COVID-19 vaccines (first and second doses) are available for ages 5 years and older.</p> <p>Booster doses are available for ages 12 years and older, who completed their two dose series of Pfizer/Moderna more than 5 months ago and 2 months ago for Janssen (J&amp;J).
