

7 Tips for a Dog Safe 4th of July

1

ID

blog.pupsplace.com

Double check to make sure your dogs are wearing their ID tags with a properly fitting collar in case they get away.

2

Exercise

Help your dog burn off some extra energy with a long walk or run earlier in the day before fireworks start.

3

Stay

Keep your dogs inside and home with them. Resist all temptations to take your dog to fireworks, it is never a good idea.

4

Protect

Keep doors & windows shut to help prevent escape attempts and cut down on anxiety causing noise. Keep curtains shut to block out bright, flashing lights.

5

Provide

Provide a safe place for dogs to chill out. Many dogs prefer to retreat to small enclosed areas when stressed or frightened

6

Avoid

Keep fireworks away from dogs. Do not set off fireworks near or around your pets.

7

Distract

A favorite toy or special treat can distract from firework chaos.
