ABOUT US
We find beauty in the most incomprehensible places and otherwise sad faces. It is our gift to see
beyond the dirt, terror, pain, sadness and defeat and find the true soul that lies within. We are the
hope for the hopeless.

WE ARE RESCUE...

Yaqui Animal Rescue
Admin · Top contributor · March 3 · 🌐

We are excited to announce the launch of our Spay/Neuter/Vaccination/Microchip clinic on April 12-13, in partnership with the Donna North Veterinary Science Program.

This clinic will offer low-cost spay, neuter, vaccination, and microchip services for companion pets throughout the Rio Grande Valley. Our goal is to provide affordable care to help reduce the number of stray animals in our community and improve pet health. We ask registrants to cover only pet registration fee [$25-35]; we will take care of the rest!

For several months, we have been collaborating with the talented students at Donna North High School, veterinarians from across the U.S., and local organizations to bring this important initiative to life. We are excited to give back to our community, but please note that spots are limited. To pre-register, complete the form linked below. The deadline for pre-registration is March 11th.

Submitting a registration form does not guarantee a spot. Selected participants will receive a confirmation email with detailed instructions and information before the clinic.

PRE-REGISTER HERE: https://forms.gle/nhEPYnPDbVbF6RBy6

We would like to thank everyone involved for making this clinic possible! Let's work together to end animal overpopulation in the Rio Grande Valley! #SpayNeuter

---

Fix a stray RGV

Fix a stray RGV
May 5 at 5:04 PM

MEET THE TEAM CONTINUATION...

Hi everyone! My name is Lily Adams and I'm the founder of Fix A Stray RGV. You may recognize my name or already know who I am, but I want to introduce myself to those who don't know me.

I am a wife, a mother, an RN, a foster, a networker, and a rescuer in the valley.

My absolute passion is dog rescue work. I love to get dogs OUT of the RGV. I have been picking up strays and fostering them while networking for a rescue for many years now. Just last year, I started doing it more often and since then I've become a revolving door for fosters. The RGV has a major overpopulation crisis that is spiraling out of control. Things will never get better until people start learning about proper pet ownership that starts with SPAY/NEUTER. We don't need anymore dogs populating the area. There is already plenty of them suffering in the streets. We don't need anymore backyard breeders selling for a quick buck while shelter animals die. We need people to open their eyes to the suffering that these animals are enduring in the streets. We need less people to look away and to actually do something!

I sat with the idea to start this program for a long time and I hope that by providing low cost spay/neuter services more people will be inclined to helping our community strays. With that being said, I understand the financial burden it takes to fix strays in the valley. We have little to no low cost options, no affordable vet care, no resources, appointment are booked months in advance.. all of this just contributes to the crisis we are facing. I hope this program grows and that we can start making even the slightest dent of a change in the RGV. The answer isn't more adoptions, the answer is spay and neutering to prevent unwanted litters of cats and dogs!

Thanks for reading all the way through. I don't want to make this a novel so I'll cut it short 😊 Thank you for being here! Now let's fix some more strays! 👀

(The picture on the left is of me and one of the dogs I helped)
