Safety and Precaution

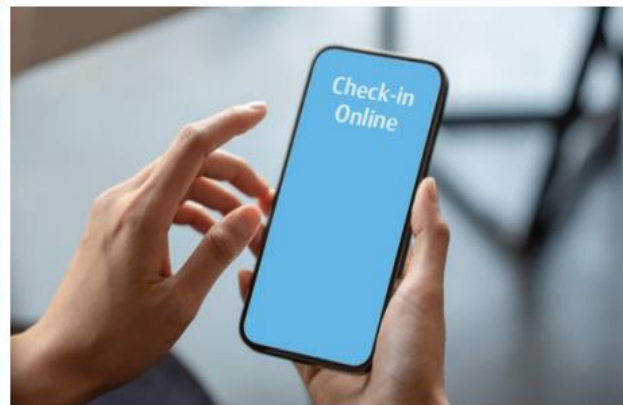

100% FRESH AIR VENTILATION SYSTEM, NO AIR RE-CIRCULATION

Incoming air is filtered and a dedicated ventilation system redirects air out of the ship to ensure no re-circulation of air between cabins. Air intake and exhaust on opposite sides of the vessel.

360° COMPREHENSIVE PREVENTIVE MEASURES/ ENHANCED CLEANING PROCESS

Over 40 health and safety measures cover eight areas of the ship ranging from embarkation and disembarkation, cabins, public spaces, safe food and beverage handling procedures, recreational facilities, ventilation systems, medical services and crew safety.

100% ONLINE CHECK-IN TO MINIMISE CONTACT

All guests are required to complete check-in online, obtain their key cards from check-in kiosks and embark the ship in designated groups to avoid crowd congestion at the terminal.

REGULAR SANITISATION

On-board disinfection and cleaning has been stepped up. All public areas of the ship will be cleaned multiple times throughout the day to ensure a safe cruise for all.

Guests will have to undergo mandatory pre-cruise Antigen Rapid Test (ART) within 24 hours of ship sailing time, at clinics/medical center's approved by Ministry of Health. The electronic as well as hard copy of the test will need to be presented at the time of check in.

Thank You
