Core Competencies

- Site work
- Demolition and cleanup
- Remediation services
- Utilities (water and sewer)
- Aggregate supply (gravel, rock, dirt, clay, etc...) and trucking

Past Performance

DANR - Justin Allen - Engineer - justin.allen@state.sd.us - 605-651-0083 - we have removed underground tanks for the DANR for over 8 years now. We also do remediation services for the DANR

GF&P - Kyle Potter Biologist - kyle.potter@state.sd.us - 605-223-7705 - we have supplied material to the Game Fish and Parks as well as done a few jobs for them, including: hauling out concrete rubble, rip rap/shoreline improvements, prepping a new fishing landing area, spreading gravel

Bureau of Reclamation - Steve Fritch Civil Engineer - sfritch@usbr.gov - 605-519-5419 - we fixed a spillway breach on the James River

SDDOT - Brad Letcher - Engineer - brad.letcher@state.sd.us - 605-353-7140 - we hauled and placed rip rap along Hwy 37 to help stabilize the bank along the water. We've also repaired water and sewer lines under state Highways (work was done directly for a customer, but the DOT is involved for road repair and traffic control. We are a DOT approved contractor

City of Huron - Rob Rieger - Sewer/Water Superintendent - rieger@huronsd.com - 605-350-0290 - we do a lot of water and sewer repairs in Huron.

GeoTek - Jerry Zutz - Sr Project Manager - jutz@geotekeng.com - 605-335-5512 - we do a lot of contaminated soil cleanup for vehicle accidents and fuel spills

Differentiators

We are a Women Owned Small Business (WOSB) that goes to great lengths to ensure that the job is done correctly the first time and customers are very happy with our work. We have great employees that are easy to work with and care about the customers. We are highly recommended by local agencies and contractors. We are bonded and insured.

We have a lot of competencies, so can take on projects that include multiple areas of work (site work, utilities, demo, etc...). We have newer equipment and can do jobs very quickly and efficiently to keep timelines tight.

We work with other contractors and have a great reputation with our subs and general contractors that we work with. We can keep projects moving and on-time to ensure deadlines are met. If there is a part of the job we don't do, we know who to get involved to get it done

We have the latest technology for site work and can even design our own projects if needed. We run newer equipment and do our best to keep the environment clean and promote green initiatives. We use HDPE pipe, paperless processes, high-efficiency heating/cooling, fuel efficient equipment, provide long-term solutions to customers and recycle aggregates (like asphalt and concrete rubble).

Company Data

Wipf Excavating LLC is a small family owned business with a wide variety of competencies and very experienced. We can do site work, demolition, sewer, water, environmental cleanup, trucking, supply aggregates and more. We have grown every year since we started and continue to provide the best service in our area. We have a 5 star rating and exceed customer's expectations on projects. wipfexcavating.com
