Join us for a seminar:

### Designing the Model T

Wednesday, October 7 at 4:00 p.m.  
MTFCI tent: RCM 24 & 25  
Speaker: Trent Boggess

Trent will take us inside the original Design Team, led by Henry Ford and C. Harold Wills, and introduce the individuals whose ideas shaped the earliest vision of the Model T. He'll walk

us through how the team built on their experience with the Ford NRS models to develop a new, improved vehicle that became the first Model T prototype. Trent will also explore the pivotal June 1908 design review, when the prototype was transformed into the first production Model T's.

Join us as Trent shares the discoveries he has uncovered through years of dedicated research and learn more about what truly made the Model T such a revolutionary vehicle!
