RE: Laundry H2O Systems

To whom it may concern,

I am writing to say how pleased we are with our recently installed water recycling system installed by Laundry H2O. The team at Laundry H2O was great to work with, and they installed a very simple to use system which my employees were able to utilize effectively. The system takes up very little space and is extremely low maintenance.

As a hotel which does its own laundry, water costs are always a major concern, especially given the recent increases to water cost in our area. That is why we were so interested in working with Laundry H2O. For 2018, we estimate our savings on water to be in excess of \$800 per month. Additionally, our savings on gas have been more than \$300 per month as well. In total, we estimate our savings to have been more than \$1,000 per month.

Furthermore, we market this hotel as being "Green", and utilizing the Laundry H2O program saves more than 800,000 gallons of fresh water annually.

For all of the above reasons, we intend to install the Laundry H2O system in all of our hotels. Thanks to the Laundry H2O team for making this such a painless experience, and we look forward to conducting more business in the future.

Sincerely,

Rajiv Singh, President  
Days Inn Hotel Calumet Park
