

A Mountain from the Stars and a Message from God

WAJD Prophetic Watch | July 29, 2025

Earlier this month, astronomers made a stunning announcement: a massive object from outside our solar system—named **3I/ATLAS**—is racing toward the inner planets at an incredible **130,000 miles per hour**. At nearly **seven miles wide**, it's the largest interstellar object ever recorded—bigger than Mount Everest.

But is this just space science... or a spiritual sign?

A Heavenly Visitor—Or a Warning?

While scientists debate its origin, speed, and strange approach angle, others are asking deeper questions: Could this be a **wake-up call** from God?

Even some secular voices are entertaining unusual theories. Harvard astronomer **Avi Loeb** speculates this may not be a comet at all, but an **alien probe**—a thought that's grabbing

headlines. But whether it's a cold rock or something else, the message to humanity is clear: **we are not in control.**

A Prophetic Echo from Revelation

Scripture speaks of such an object with chilling accuracy. **Revelation 8:8** says:

“And the second angel sounded, and as it were a great mountain burning with fire was cast into the sea...”

For centuries, this was seen as symbolic. But now, we're witnessing a **literal mountain from the heavens**, blazing with gas and mystery. While 3I/ATLAS may not be *the* object described in Revelation, it certainly **foreshadows** what is to come—and proves God's Word is aligned with the signs we're now seeing in the skies.

Signs Above, Warnings Below

Jesus warned us in **Matthew 24:29** that the stars would fall and the heavens would shake before His return. The Book of Revelation also describes falling stars, hailstones, and fiery mountains crashing into the earth.

These aren't just ancient images—they're **future events**. And in today's age of telescopes and tracking systems, we're seeing glimpses of these prophecies forming before our eyes.

The world sees a scientific marvel.

The Church should see a divine warning.

Not Alien Life—Eternal Truth

Speculating about alien life may be intriguing, but the real question isn't *what's out there*—it's **Who's coming back**. Jesus is returning—not as a baby in a manger, but as **King of Kings and Judge of all the Earth**.

Whether 3I/ATLAS is natural or not, **God is allowing it** to remind us: the clock is ticking. This world is temporary. A collision is coming—**not by accident, but by divine appointment.**

WAJD Reminder: Are You Ready?

God has already written down His warning. We don't need to wait for a scientist to confirm what the Bible already declared.

Each fireball, each celestial event, each interstellar object is like a trumpet sounding from the heavens—calling us to **repent, prepare, and proclaim** the truth.

**Let this “mountain from the stars” stir more than curiosity.
Let it stir your soul.**

Because the next one... **may not miss.**
