

Global Flooding Update

A Season of Rising Waters — A Call to Watch, Pray, and Prepare

Across the world, flooding continues to affect communities, reminding us of the power of nature and the importance of preparedness, compassion, and steadfast faith. Below is a clear overview of regions currently experiencing significant flooding impacts.

United States

Several states are dealing with river flooding, flash floods, and water rescues:

- **Washington** – Major river flooding with evacuations underway in multiple counties
 - **Oregon** – Overflowing rivers and landslides impacting rural and coastal areas
 - **California** – Flooding following heavy rain and mountain snowmelt
 - **Idaho** – Rising rivers affecting farmland and small communities
 - **Alaska** – Flooding linked to storms, ice movement, and rapid snowmelt
-

Asia

Flooding across Asia has displaced thousands and caused severe hardship:

- **Indonesia** – Widespread flooding and landslides affecting villages and remote regions
 - **India** – River flooding in several states, impacting homes and agriculture
 - **Bangladesh** – Seasonal floods submerging low-lying areas
 - **China** – Heavy rainfall leading to urban and river flooding
 - **Sri Lanka** – Floodwaters damaging infrastructure and farmland
 - **Thailand** – Flash floods and river overflow in multiple provinces
-

Europe

Unsettled weather has brought flooding to parts of Europe:

- **United Kingdom** – River and surface flooding affecting England and Wales
- **Italy** – Flooding and landslides in northern regions
- **France** – Localized flooding following heavy rainfall

- **Germany** – Rivers rising after persistent rain
-

Africa

Several nations are facing flooding tied to seasonal rains:

- **Kenya** – Flooding impacting villages and roadways
 - **Somalia** – River overflow displacing families
 - **Nigeria** – Flash flooding in urban and rural areas
 - **South Africa** – Flood damage following severe storms
-

Middle East

- **Afghanistan** – Flash floods affecting rural provinces
 - **Iran** – Flooding damaging homes and agricultural land
-

Latin America

- **Brazil** – Severe flooding in southern states impacting cities and farmland
 - **Colombia** – River flooding and landslides
 - **Peru** – Floodwaters affecting coastal and mountain regions
-

A Steady Word Forward

In times like these, communities are reminded of the value of preparedness, neighborly care, and prayerful resolve. While waters rise and challenges mount, relief efforts continue, and help is reaching those in need.

“When thou passest through the waters, I will be with thee.” — Isaiah 43:2 (KJV)

Let us remain watchful, informed, and ready to help where we can, holding fast to hope and faith even in difficult seasons.
