Use of RETINOL/RETINOIDS
Micro blading
Micro shading
Tattooing
Sunburn

PRE-CARE:

Lashes-

- Remove all EYE MAKEUP (mascara, eye shadow) prior to your appointment.
- This service can not be preformed on LASH EXTENSIONS.
- Do not use LASH GROWTH SERUMS at least **72 hours prior** to your service.
- Remove your CONTACTS prior to your appointment.
- Do not use OIL cleansers on your lashes **72 hours prior - 72 hours post treatment!!** *Oil will prevent the product from working, and can cause them to drop.
- We suggest using a non-waterproof mascara.

Brows-

- Please do not use any BROW GROWTH SERUMS at least **72 hours prior** to your service.
- If you've done any of the following services within 72 hours of your appointment, we will refuse to do the brow lamination on you: wax, use of retinols, chemical/enzyme peel, threading, previous lamination, etc. Please disclose this to your esthetician asap.

POST-CARE:

For the first 24 hours:

- Do not get them wet.
- No makeup.
- If you notice your lashes are too curly- we suggest getting your lashes WET. The easiest way to 'calm down your curl' is to get the lash brush we gave you wet and brush thru your lashes. You can also apply organic castor oil. If after a couple of days, you notice your lashes still have not reset, reach out to us!
- Continue to brush in the desired direction you want your hairs to 'fall.'

After 24 hours:

- We highly suggest purchasing Elleebana's Advanced After Care Lash Serum. Apply morning and night, and can be layered under mascara or makeup.
- Makeup can be worn.
- Use a non-oil, mild gel cleanser.
- Brows will require a Palmade or Brow Gel to give them that 'wet look.'

CONSENT

Lashes-

Although every precaution will be taken to ensure my safety and wellbeing, I am aware of the following information and possible risks: Irritation to the orbital eye area, including the eye itself, and could result in stinging or burning, blurry vision and potentially blindness should the product enter into the eye. I understand that if product accidentally comes into contact with my eye, my eye will be flushed with water and medical attention may be required. I understand that some irritation, itching, or burning may occur to the SKIN which comes in contact with the product. I understand that there may be some residual dark staining left on the skin following the tinting process of my lashes. This will fade and go away within a short time. I understand that, while every attempt will be made to provide me with my chosen color and lifting results, everyone's hair absorbs color and serums differently and my final results may not be exactly what I was expecting. I understand that over the course of several weeks, the tint and lift will gradually lighten, fade and dissolve. Re-tinting will be required to keep the new color fresh. Most clients need to re-tint every **3-4 weeks**, lifting is every **6-8 weeks**.

Brows-

Although every precaution will be taken to ensure my safety, I am aware of the following information and possible risks: I understand that some irritation, itching, or burning may occur to the skin which comes in contact with the lamination/tinting agent. I understand that there may be some residual dark staining left on the skin following the tinting process of my brows. This will fade and go away within a short time (tint on the skin only lasts 3-4 days). I understand that, while every attempt will be made to provide me with my chosen color and lifting results, everyone's hair absorbs color and serums differently and my final results may not be exactly what I was expecting. I understand that over the course of several weeks, the tint and lift will gradually lighten, fade and dissolve. Re-tinting will be required to keep the new color fresh. Most clients need to re-tint the hairs every **3-4 weeks**, lamination is every **6-8 weeks**.

I understand that it is imperative that I disclose all of the information requested on the Client Consent Form. I have cited all conditions and circumstances regarding my health history, medications, and any past reactions to products or medications. I understand that additional conditions could occur or be discovered during the procedure which could affect my ability to tolerate the procedure. I understand and agree to the after-care instructions provided by the technician. I realize and accept the consequences of failure to adhere to these instructions.
